Goderich collection for Library

A picture of pioneer life

Tales of long lost treasures found in dusty attics are nothing new to Collections Librarian John Moldenhauer. They are often the rule rather than the exception. Such was the case with a recent find in the Goderich area, where he located a valuable collection of materials relating to early Scottish settlers in southwestern Ontario.

A successful bid for the materials brought to the University a fascinating and useful collection of documents recounting the life and times of the Lizar-Wilkinson family, early Scottish settlers in the Huron Tract. The Lizar family were descendants of a Scottish engraver who immigrated and settled in Goderich. The Wilkinsons descended from a Scottish surveyor who worked the southwestern parts of the province and had connections in the Windsor area. Of special interest to students of local history will be the personal letters of John Galt, founder of Guelph, his brother Thomas, and his son John who married Helen Lizar. An additional bonus was the acquisition of an intact family library of the day.

The personal book and library material furnishes information on the literary tastes of an early pioneer family as well as historical information through the evidence of Scottish and Canadian imprints. The library also details the basis for home education of the day. As Mr. Moldenhauer explains, records of this sort, in the form of a complete family library, have not been available before the Goderich find. History professor, Ted Cowan, notes that there is a wealth of material for the study of Scottish aspects of the Huron Tract settlement, but this family collection is particularly exciting because of the number of rare items of publishing history that it contains.

The Wilkinson papers, containing as they do information gathered, recorded and assembled from a technician's point of view, furnish an exciting and unusual facet of

Canadiana for study. History professor, Gilbert Stelter, has a special interest in town planning and feels that these papers offer a rich source of documentation for the western area of the Province. While not unique of its kind, the material fills in significant gaps in the available information for Windsor and the surrounding area.

John Galt's Personal Letters

One part of the collection, however, is unique and caps the find particularly well. The author John Galt, in his role as representative of the Canada Company, wrote thousands of official letters most of which are on record in the Public Archives. Of his personal letters, those in which he might be expected to reveal a more intimate record of his life apart from the Canada Company, there are precious few. For this reason, the discovery of six letters from Galt to various members of his family constitutes a rare set.

Prof. Stelter points out that three of the six letters are of particular interest to historians concerned with John Galt, with Canada, and with the Guelph area. One of the letters records Galt's reactions to the City of London, England, on the occasion of his first visit there in 1804; a second assesses the personalities of the author's two sons, Thomas and John, offering a thumbnail sketch of each of the two men who were to become important Canadians in their own right. In the third letter, Galt comments on what he felt to be the importance of a position making him the "second person in this grand country," notes the progress of his new town Guelph, and mentions David Gilkinson, who was later to be involved with his father, William Gilkinson, in the settlement of the town of Elora.

The Goderich find is significant for its size, the period covered, the variety of materials included, the personalities involved or discussed and the aspects of settlement life

History professors Ted Cowan, seated, left, and Gilbert Stelter, standing, examine papers in the Goderich collection with Collections Librarian John Moldenhauer.

recorded. In Prof. Stelter's words, the materials offer "a rounded picture of pioneer life." It will serve historians, particularly those concerned with the Scot in early Canadian settlement, sociologists, urban planners, and students of early Canadian literature and literary figures. It is a significant find and a notable addition to the holdings of the University of Guelph. □

CIDA president

The president of the Canadian International Development Agency, Marcel Masse, will be visiting the campus Wednesday, March 10.

The Centre for International Programs invites all interested faculty members to meet Mr. Masse in Room 103 of the University Centre from 10 a.m. to 11:30 a.m.

Information: Ext. 3256. □

Thousands expected for College Royal, Open House

The University of Guelph expects 25,000 visitors at its 58th annual College Royal and Open House Friday March 13 and Saturday, March 14. Open House Weekend welcomes the public and encourages everyone to participate in the festivities planned by students.

Parking is free, as is the shuttle bus service that will circle the campus beginning at 11 a.m. on Saturday and 12 noon on Sunday. The University Centre and other locations will provide information and campus maps.

Events and shows of all types will give the visitor an inside look at the areas of study which the seven Colleges are involved in. This will be a particularly good opportunity for people who are considering certain career directions.

Displays will include: computer games, new foods, veterinary surgery, psychological testing, landscape design, painting, sculpture, ecology concerns and scientific demonstrations.

The Livestock Show, a tradition from which the College Royal developed, will be held in the University arena on Saturday morning of the Open House. Visitors can enjoy the Seed and Forage Show at the Crop Science building, the Juried Art Show at McLaughlin Library or the Corsage and Flower Show in the Horticultural Science building. All begin at 9 a.m., March 13.

Other scheduled events for Saturday include the ever-popular square dancing competitions, synchronized swimming and performing dance groups. These

will be held at the Athletics Centre. Other activities which also promise to be entertaining are the Fashion Show, the Cat Show, and Film Fest '82.

A regular favorite with the youngsters is Old MacDonald's Farm, located in the Old Dairy Barn. It will be open on Sunday at 11 a.m.

The Woodsmen Competition, an interesting combination of eastern varsity sports, will be getting under way at the same time, just south of the Athletics Centre. Cross-cut sawing and pulp throwing are only two of the many scheduled competitions for this event.

The Curtain Call presentation, a spoof on campus life, will be held at War Memorial Hall on March 10, March 11, March 12 and March 13. This year's performance is entitled "Gidget Goes to Guelph." Advance tickets can be obtained at the central box office in the University Centre courtyard or at the door. Ticket prices are \$1.75 advance and \$3 at the door.

Residence tours will be available during College Royal's Open House Weekend, and aerial tours of the University, the Elora Research Station and the surrounding countryside will be given by the University Flying Club for a fee of \$8 (weather permitting).

The official opening of College Royal takes place at 1 p.m. Saturday, March 13 in Peter Clark Hall, University centre. Well-known Canadian broadcaster, Lloyd Robertson, will give the public address. □

Boyd Matchett joins Board of Governors

J. Boyd Matchett of Toronto has been appointed to the Board of Governors for a three-year term.

Mr. Matchett, who is president of Cara Operations Limited, a leading Canadian foodservice company, is no stranger to the University. He is actively involved with the School of Hotel and Food Administration as chairman of the policy advisory board for the Advanced Management Program for the Hospitality Industry (AMPH I) being developed by the School.

Mr. Matchett is also a director of the Sunnybrook Medical Centre Institute and of a number of food industry companies. He served in the R.C.N.V.R. during World War II.

Born in Hamilton, Mr. Matchett is a graduate of the University of Toronto. He received a Hudson's Bay Company Fellowship for study at the London School of Economics.

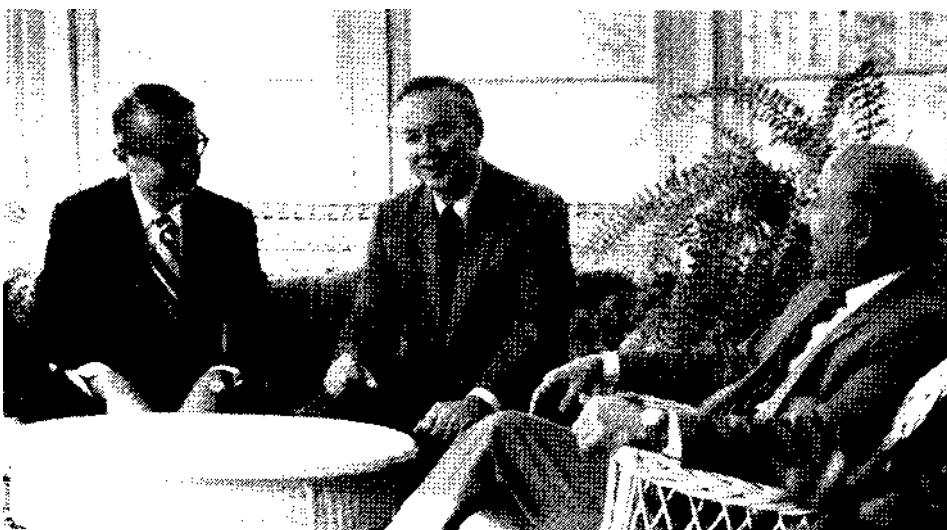

Mr. Matchett began his business career with Massey-Ferguson Ltd., serving the company in Canada, the USA, England and France. In 1959 he joined Urwick-Currie Ltd. as a management consultant, and in 1962 became general manager of Cara Operations Limited. He has been president of that company since 1969.

A COUPLES' COMMUNICATION GROUP

is available to students who have made a serious commitment to a relationship and want to learn ways of enhancing their communication skills. Four, two-hour sessions are scheduled for Tuesdays and Thursdays, March 16, 18, 23, and 25 beginning at 6 p.m.

Couples who are interested in attending should telephone Ext. 3244 to arrange for a pre-registration interview with group leader, Bruno Mancini, Counsellor, Counselling and Student Resource Centre.

Enrolment is limited to five couples. There is a \$10 registration fee to cover the cost of materials.

The Agricultural Research Institute of Ontario met recently on campus to permit its members to hear reports from University of Guelph faculty members of research projects under way in the various Colleges. R.M. Murray, chairman of the ARIO, centre, and Dr. J.C. Rennie, assistant deputy minister, education and research, of the Ontario Ministry of Agriculture and Food, chat with President Donald Forster during lunch at the President's house.

OAC faculty made Fellows of Soil Society

Two members of the OAC faculty have been made Fellows of the prestigious Soils Science Society of America.

Professor Jack Tanner, Crop Science, and Professor Dave Elrick, Land Resource Science, become the first Guelph faculty members since the late C.A. Zavitz to receive that honor. Dr. Zavitz, who achieved fame as a cereal breeder and a teacher, was a member of the first degree class to graduate from OAC in 1888.

Prof. Tanner, Chairman of the Department of Crop Science, has conducted research in corn and soybean physiology and production, with emphasis on plant structure, light relationships, narrow row production and nitrogen fixation. He headed the research team that successfully introduced peanuts as a commercial crop in Ontario. In 1974, he received the OAC Alumni Association's distinguished teaching award. Prof. Tanner also served for two years in Ghana at the University of Legon during the University of Guelph's co-operative program with that university, and has taken an active interest in other Third World projects.

A graduate of OAC in 1957, Prof. Tanner, completed graduate studies at Iowa State University.

Prof. Elrick is best known for his research in soil physics, particularly on water and solute transport through soils. A former chairman of the Department of Land Resource Science, he has taught soil physics since joining the OAC faculty in 1957. After completing a term as Chairman of the Department of Land Resource Science, he also served interim terms as Acting Dean of Graduate Studies and Acting Dean of Research at the University of Guelph.

In 1960, Prof. Elrick went to the agricultural physics section, division of plant industry, CSI RO, Canberra, Australia, where he spent two years before returning to the University of Guelph. In 1966 he received, along with two co-authors, the "Article of the Year" award from the Soil Conservation Society of America. He is currently an associate editor of *Agronomy Journal*, as well as a member of the editorial board of *Water, Air and Soil Pollution*, and a past editor of the *Canadian Journal of Soil Science*.

A graduate of OAC in 1953, Prof. Elrick completed graduate studies at the University of Wisconsin. □

Soil Society Fellows: left to right, Prof. Elrick, with OAC Dean Clayton Switzer and Prof. Tanner.

Francis H. Dean

California State Polytechnic University landscape architecture lecturer Francis Dean will be a distinguished visiting professor in the School of Landscape Architecture from Sunday, March 14 to Friday, March 20.

Mr. Dean will give a University-wide lecture Tuesday, March 16 at 7:30 p.m. in Room 204 of the LA building. His topic is "California Phenomena in Landscape Architecture."

Dr. H.O. Hultin

The acting director of the Marine Foods Laboratory, department of food science and nutrition, University of Massachusetts, Dr. H.O. Hultin, will be a visiting professor in the Department of Food Science from Monday, March 22 to Friday, April 2.

Dr. Hultin will give three seminars in the Department, "Utilization of Non-traditional Marine Species, Wednesday, March 24, 7:30 p.m. in Room 202; "Quality Control at the Cellular Level," Friday, March 26, 11:10 a.m. in Room 202, and "Subcellular Location of Enzymes," Wednesday, March 31 at 7 p.m. in Room 202.

All are welcome at these seminars. Prof. Hultin will also be available for discussion with faculty members and students. Information: Professor D.W. Stanley, Food Science, Ext. 2283 or 2281.

Maurice Lee

Professor Maurice Lee, Jr. of Rutgers University, visiting professor of History and Scottish Studies, will be on campus Monday, March 8 to Saturday, March 20. Author of several important studies, Prof. Lee is best known for his work on sixteenth and seventeenth Scottish history.

During his visit he will be conducting several seminars for graduate students in Scottish Studies and in Reformation Studies. On Wednesday, March 17 at 4 p.m. in Room

230 of the Arts building, he will give a public lecture on "Women and Politics in the Age of Reformation: John Knox and the Monstrous Regiment of Women." All interested are welcome to attend.

Information: Professor Ted Cowan, Ext. 3226, or the History Department, Ext. 3888.

N.S. Novakowski

Dr. N.S. Novakowski spent two weeks in the Department of Zoology as a visiting professor in February. Dr. Novakowski is co-ordinator for wildlife research in the wildlife research and interpretation branch of the Canadian Wildlife Service, Ottawa. He has been adjunct professor of biology at the University of Ottawa for the last eight years.

During his visit, Dr. Novakowski presented four lectures on wildlife management to senior undergraduates.

Dr. Novakowski, who was instrumental in the establishment of the Fur Research Institute of Canada, was also involved in the development of humane trapping standards and the new Wildlife Export-Import Act.

CARLETON UNIVERSITY professor Mary Jane Edwards will be on campus Friday March 5. She is principal investigator of a project on Canadian tests which is supported by a major negotiated grant from the SSH RC. Under the project, senior scholars across the country will produce definitive editions of central works of Canadian prose.

Prof. Edwards will give a talk on research in Canadian literature at 2 p.m. in the Faculty Club, level 5, University Centre. Everyone is welcome to attend.

INTERNATIONAL WOMEN'S DAY is March 8 and a number of events will be held on campus. Films, panel discussions, displays, a cultural night and workshops on a number of topics are planned. Watch "Next Week at Guelph" for details. Information: telephone 824-2091 or Ext. 8591.

PLANE RIDES will be offered again at College Royal and University Open House this year. The sightseeing trip includes a flight over the University, the City of Guelph, the Elora Research Station and the Town of Fergus. Tickets, at \$8 per person, or \$22 for a full plane load, are available from the University of Guelph Flying Club, Room 229 of the University Centre.

Professor Kari Grimstad, German section, Languages and Literatures, gave an invited lecture at the colloquium on "Vienna at the Turn of the Century" held at the University of Toronto. The lecture was entitled "Karl Kraus: Much Ado about Nothing?".

She also participated in a special section on "Raimund's Stagecraft" at the annual meeting of the Modern Languages Association held in New York, and gave a paper, entitled "Theatricality and the Revelation of Psychological Reality in Raimund's *Alpenkonig and Menschenfeind*."

Dr. Coral Ann Howells, a visiting professor in the Department of English Language and Literature, has been invited to give the commencement address at Randolph-Macon Women's College, Lynchburg, Virginia in May. She will talk about women's sense of identity in the challenging roles that they face in modern society.

Ernie McFarland, Physics, presented a paper "How Olympic Records Depend on Location" at the American Physical Society/American Association of Physics Teachers (AAPT) meeting in San Francisco.

Mr. McFarland has been appointed chairman of the AAPT committee on apparatus.

Professor A. Mellors, Chemistry, was an invited speaker at Syntex Research Laboratories, Mississauga. He spoke on the topic "Phospholipases of African Sleeping Sickness." He also gave seminars at the department of chemistry, St. Francis Xavier University, Antigonish, N.S., on the topic "Physical Toxicity and Molar Volumes," and at the department of biochemistry, Dalhousie University Medical School, on "Inhibition of Membrane-Bound Enzymes."

Professor Alex Michalos, Philosophy, addressed the Conference on Academic Freedom at Memorial University on tenure, funding and the increasing importance of university outreach programs for the future of Canadian universities.

Professor Robert Munsch, Family Studies, toured the Yukon during National Children's Book Week. This tour, funded by the Canada Council for the Arts, involved a series of workshops and library and school readings in Whitehorse, Watson Lake and Faro.

Prof. Munsch visited Halifax, also funded by the Canada Council for the Arts, and was involved in several readings and a workshop on children literature and storytelling at Mt. St. Vincent University.

Dr. J. Patterson, Clinical Studies, spoke to the Thunder Bay Veterinary Association, on "Liver Disease and Ascites."

School of Agricultural Economics and Extension Education faculty members visiting Ottawa for the Agriculture Canada Outlook Conference included **Professors G.L. Brinkman, H.C. Driver, E.L. Menzie and D.P. Stonehouse**.

School of Engineering professor, J. Pos and **Ken Boyd** of OMAF attended the Agriculture Canada workshop on swine manure management technologies which was held in Ottawa.

School of Agricultural Economics and Extension Education faculty members who attended a seminar presented in Guelph to members of the Farm Products Appeal Tribunal included Professors T.F.

Funk, S.H. Lane, E.L. Menzie, and T.K. Warley. Prof. Funk spoke on "Market Development Strategy for Rutabagas: A Case Study;" Prof. Menzie, on "The Canadian and U.S. Tobacco Production, Pricing, and Marketing Systems" and Prof. Warley, on "Improving the Regulatory Process."

Several faculty members and graduate students in the Department of Pathology were in Winnipeg to attend two meetings. **Professor V.E. Valli** presented a half-day seminar on "Pathology of Lymph Nodes" at the annual meeting of the Canadian Association of Veterinary Pathologists.

Dr. A. Singh, Biomedical Sciences, participated in the 148th international meeting of the American Association for the Advancement of Science held in Washington, D.C. His contribution, entitled "Ultrastructure of the Liver from Rats Fed Photomirex: An 18-month Recovery Study" was co-authored by Dr. D.C. Villeneuve, health protection branch, Ottawa, and **Dr. V.E.O. Valli**, Pathology.

Professor Marion Steele, Economics, presented a seminar to the Ontario Economic Council on "An Economic Analysis of Housing Allowances."

The following papers were presented at the 33rd annual convention of the Canadian Veterinary Medical Association by Department of Pathology faculty members: "Heartworm in Canada in 1980" by **Professors J.O.D. Slocome**, and I. McMillan; "Effectiveness of Ivermectin and Fenbendazole against Migrating *Strongylus vulgaris* in Ponies," by Prof. Slocome, **B.M. McCraw**, P.W. Pennock, and J. Vasey; "Vaccination against ITEMÉ" by **L.R. Stephens** and P.B. Little; "Neutrophil Function in Experimental Porcine Salmonellosis," by G.S. Smith, **J.H. Lumsden** and **B.P. Wilcock**; "The Pulmonary Clearance of *Pasteurella haemolytica* in Calves Infected with Bovine Virus," and "The Pulmonary Clearance of *Pasteurella haemolytica* in Calves Injected with *Corynebacterium parvum* and Infected with Parainfluenza-3 Virus."

Dr. Dan Yarmey, Psychology, presented a seminar and colloquium on "Eyewitness Identification and Testimony" to the department of psychology, University of Calgary. Several police officers from Lethbridge and Calgary participated in the discussions.

Professor Peter Yodzis, Zoology, was visiting professor at the Scripps Institute of Oceanography, La Jolla, California. While there, he gave a series of technical lectures to the ecology section and presented a general lecture entitled "What Is This Thing Called Theoretical Ecology?" to the Marine Biology Department.

An action program for rural women

Through the work of people like Guelph sociology professor, Nora Cebotarev the quality of family life and the role of women are finally being recognized as important factors in rural development in Central and South America.

In 1974 Prof. Cebotarev undertook a study of the role of home economics in 13 countries in Latin America. The report, funded by the International Development Research Centre (IDRC), was published in Bogota, Colombia in 1979. Called *Mujer Rural y Desarrollo/Rural Women and Development*, the book immediately sparked interest among development groups and soon became the basis for further research and formalized action programs by the Inter-American Institute of Agricultural Co-operation (IICA), a specialized agency of the Organization of American States (OAS). IICA, with offices in all Latin American countries and in the Caribbean, assists the countries' agriculture ministries with agricultural and rural development projects.

Guelph entered into a formal agreement with IICA in May, 1979, and Prof. Cebotarev, who was named the University's liaison officer, was commissioned by IICA to help set up its rural development programs — dealing with women and family life — on a hemispheric basis.

On investigation she found that agencies charged with introducing rural development programs, and universities studying such matters, were experienced in work with the middle rural and urban classes, but not the rural poor. Up till now, moreover, there has been little interchange between those offering agricultural and horticultural training and those familiar with the women's role in the Latin American economy. Since women produce as much as 70 per cent of the food in those countries, says Prof. Cebotarev, they are the ones who should be receiving not only agricultural training, but should be participating in support services such as credit and marketing. Agency field workers are now providing such technical assistance and service to rural women in areas such as the state of Pernambuco, Brazil and Paraguay, notes the sociology professor.

In other, related ways, a group at the University of Pelotas, Rio de Grande del Sol, Brazil, is studying old, traditional methods of producing and processing food so as better to use existing material and human resources and to assist rural families to increase their incomes. Other research groups, in an attempt to look at the problem from the grass roots level, are even studying some of the peasants' survival strategies in order to be able to provide appropriate training for future agents of rural development.

In Honduras and the Dominican Republic, the IICA women's programs have gone a step beyond the question of subsistence: they have introduced income gener-

ating projects that do not interfere with the rural family members' traditional, day-to-day responsibilities.

In November, Prof. Cebotarev and Jan Hurwitch of IICA organized an IICA-Guelph workshop on the quality of rural life and role of women in Latin America. The workshop, funded jointly by Guelph, CIDA and IICA, attracted delegates from 23 countries to the Inter-American Center for Adult Education (ICAES) in Costa Rica. Among those collaborating with Prof. Cebotarev were Guelph Nutrition professor, Olga Martinez, and Myrna Hagarty from the School of Agricultural Economics and Extension Education.

Prior to the workshop, the delegates were asked to provide information about projects in their own countries, how they were progressing in their countries, and the major obstacles they encountered in implementing them. They were asked their definition of the quality of life and what they perceived as "a good life" for their rural people.

Like anyone who has set the wheels in motion, Prof. Cebotarev finds much to keep her busy. She has just received an invitation from the University of West Indies, Barbados, to institute a similar research and action program on one of the Caribbean islands. If the program succeeds, it will be expanded to include the other islands of that region.

The need for dedicated people willing to adopt innovative approaches to rural development in Latin America is enormous, and pressing, says Prof. Cebotarev. As her project develops, Prof. Cebotarev says there will be opportunities for Guelph faculty members and students to become involved in activities ranging from basic and applied research to informal education and action. She may be reached at Ext. 2504. □

Playwright visiting Drama Department

A playwright from Victoria, B.C., Ann Chislett, will be visiting the Department of Drama Tuesday, March 9. She will speak about her own plays and the profession of the playwright in Canada today at 10:00 a.m. in the seminar room, second floor, Massey Hall. Members of the University and local community are invited to attend.

Ms. Chislett is co-founder of the Blyth Summer Festival where three of her plays have enjoyed successful runs. Her first play, *Summer Burning*, adapted from Harry J. Boyle's novel, was produced at Blyth in 1979. *The Tomorrow Box* which opened at Blyth in 1980 and ran there again last summer, has been widely produced elsewhere. Ms. Chislett's latest play, *Quiet in the Land*, premiered at Blyth in the summer of 1981. □

THE CANADA Employment Centre for Students opens April 1 at 70 Fountain Street East, Guelph. Students may register for employment at the main office, 147 Wyndham Street until that date. Details: Barbara Lumsden, 836-3100.

THE NEW YORK HARP Ensemble will perform at the Thursday Noon Hour Concert March 4 at 12:10 p.m. and 1:10 p.m. in Music Room 107 of the Arts building.

Sponsored by Concert Management, admission to the concerts is free. Program I will include the "Pachelbel Canon in D Major"; a movement from Handel's "Concerto in B Flat Major, Op. 4, No. 6"; "Granada-Serenata" by Albeniz; "Spanish Dance No. 1" by de Fella; and "Modern Sketches" by Aristid von Wurtzler, with the composer as soloist. Program II will consist of "Adagio" by Benedetto Marcello; Antonio Vivaldi's "Concerto in D Major (Estro Armonico, Op. 111)"; "Asturias (Leyenda)" by Albeniz; "Variations of 'Yankee Doodle'" by von Wurtzler; and Lecuona's "Malaguena."

THE DEPARTMENT OF MUSIC will present the final concert in its "Faculty and Friends" series Sunday, March 7 at 2:30 p.m. in Music Room 107 of the Arts building. The program will feature guest artist, renowned Canadian Baritone Gary Relyea, and three members of the teaching faculty of the Department of Music: Anna Tamm, soprano, Kenneth Tinnish, trumpet, and John Price, saxophone. Assisting artists will be guest pianists, Margaret Kapasi and Eleanor Haines.

For further information and tickets, general \$4., students and seniors \$3.50, contact the central box office in the courtyard of the University Centre, Ext. 3940. Tickets will also be available at the door on the afternoon of the performance.

TWO FILMS about Spain, *La Espana de los Contrastes* (in English) and *La Mancha* (in Spanish) will be presented by the Department of Languages and Literatures Tuesday, March 9 at 1 p.m. in Room 117A of the Arts building.

THESE ARTICLES ARE FOR SALE to University departments on an ITI basis: one C.W. Argon laser, model 162/262; one Tehnicon tissue processor and seven pounds of mercury, double distilled, in six containers of various sizes. Information: Surplus office; Dave Scott, Ext. 8139.

Wanted to Buy — TR6 in good condition, 658-9938 after 6 p.m.; Metronome, Cathy, 823-5013; apartment sized piano, 822-1354, evenings.

Available — Fast, neat typing, Bibiane, 822-2713; babysitting in evenings by University student, 836-5464 after 5 p.m.

Accommodation

To Sublet — Two bedroom apartment (furnished), April 18, 1982 to August 31, 1982, 2 miles from campus, parking, rent includes hydro and gas, 822-3482; large one-bedroom apartment available immediately, Wilsonview and Edinburgh Rd. area, 3956.

For Sale — Four-bedroom house, University Avenue, 824-5865 after 4:30 p.m.

Conference on farming alternatives

A conference, "Conventional and Organic Farming: The Future of Agriculture" will be held on campus Thursday, March 18.

Speakers will include OAC Dean C.M. Switzer, Professor F.L. McEwen, Environmental Biology, Michael Gertler, Department of rural sociology, Cornell University, and Gary Lean, B.Sc.(Agr.), M.Sc., and a practising farmer.

This is a conference organized by faculty members and students who see the value of integrating sometimes opposing currents in agriculture. The purpose of the conference is to search for alternatives that make sense in terms of the sustained production of food in adequate quantity and quality. These are questions facing everyone involved in agriculture. Everyone is welcome to participate.

Lectures are open to everyone, but those who wish to attend the supper are asked to register before Wednesday, March 10 with the University School of Rural Planning and development, Room 264, Arts building.

Details: Ignacio Villa, Crop Science, 837-3056 or Professor Eric Beauchamp, Land Resource Science, Ext. 3239. □

Telecommunications documents deposited in Archival Collection

A unique collection of documents from the International Telecommunications Union (ITU) has been deposited in the University's Archival Collection. Spanning two decades of ITU operational activities, the materials offer a rare opportunity to examine the internal functions of the Union.

The ITU is the oldest of the United Nations systems of intergovernmental organizations and operates with a mandate to "maintain and extend international co-operation for the improvement and rational use of telecommunications of all kinds." Since 1947 it has been a specialized agency of the United Nations. Through its Administrative Radio Conferences, World (WARC) and Regional (RARC), the ITU is responsible for planning and co-ordinating the usage of the radio spectrum, that range of energy waves which carry most of our broadcasting — longwave and shortwave radio, television, either direct or by satellite.

The basic collection of materials has been enhanced by the inclusion of correspondence, reports and records relating to Canada's participation in the Administrative Radio Conferences. These papers were released through the efforts of Edward Ducharme, director of WARC activities, Canada Department of Communications.

Cool music, a celebration of ice cream

Faculty band: Prof. Myhr at the piano with, left to right, Profs. Bullock, Colter and Pearson.

A musical ensemble entertained at the awards banquet held for participants in the recent two-week ice cream short course held at Food Science. The group, consisting of three members of the Department of Food Science who instructed in the course and Professor Al Colter, on loan from the Department of Chemistry, was made up of Professors Doug Bullock, rasp; Al Myhr, piano; Al Colter, trumpet and Sandy Pearson, clarinet. The group was accepted with enthusiastic applause,

not so much for artistic merit of performance, but more as an expression of sympathetic encouragement and acknowledgement of faculty courage, according to one observer!

OAC Dean C.M. Switzer spoke briefly to the students. He invited them to return to Guelph in the future either for additional training courses or for consultations with faculty members. He also indicated ways that they, as alumni, could help provoke the University back in their respective areas.

This was the 67th short course for the ice cream industry. The first one was given back in 1914 under Professor Dan McMillan. The course has been under the direction of Professor Pearson since 1955 and it has become recognized nationally and internationally for its professional calibre and practical applicability.

Again this year, the enrolment was 20 students at its upper limit — drawn from ice cream plants, dairy supply companies and government regulatory agencies.

The winner of the Bowes Company trophy and gold watch for highest proficiency in the course was Brad Allender of Beatrice Foods, Simcoe. □

Technician, Horticultural Science. Grant position. Salary range: \$284.44 - \$308.76.

Technician, Crop Science. Full-time 3-year grant position. Term: April 20, 1982 to April, 1985. Salary commensurate with qualifications and experience. Send application and resume directly to T.J. Vyn, Crop Science, Room 211.

Building Custodian 2, Housekeeping Department. Job rate: \$7.10. Probation rate \$.20 per hour lower than job rate. Open to on-campus employees only.

Wrestling

The wrestling Gryphons won their second consecutive CIAU Championship at Regina over the weekend, taking 29 points over Lakehead's 24 and Western's 19.

The Gryphons took three golds, two seconds and four bronzes on the way to victory while coach Londo Iacovelli was named Coach of the Year.

Gold Medals went to Bob Pronk (his third as a Gryphon) at 65K, Ken Bradford at 72K and Gavin Carrow at 100K+. Silvers went to Chris Crooks at 68K and Mitch Mason at 86K. Bronze medals went to Leonard Stevano at 54K, Bob Leuthard at 76K, Perry Wakulich at 80K and Harry Doering at 100K.

Basketball

Both the men's and women's Gryphons will have to wait until next year as each team bowed out in championship tournaments.

At Brock, the men dropped a decision to Windsor in the semi-final and then defeated Waterloo in the consolation final to end in third place. Over the weekend, Tom Heslip ended his career at Guelph with 21 and 34 point games, for 2,837 total career points.

The women went to Sudbury with a bye in the first round, but saw their hopes for another berth in the nationals shattered when they dropped a 63-58 decision to York in the semi-final. Rookie Cindy McMaster was named to the tourney all-star team.

Volleyball

The University of Guelph will be the site of an Ontario Volleyball Association Double AA tournament this Saturday.

Games begin at 10 a.m. and admission is free.

Hockey

It will be the Gryphons vs. the Toronto Blues for the OUAA championships, the two teams that have dominated the league over the past 10 years.

The Gryphons earned their way into the best of three final with two exciting wins over McMaster, while Toronto had an easier time dropping Laurier two straight.

In Guelph, Mark Hanley scored with 3:47 left in overtime to give the Gryphons the 2-1 win, while at Mac, Frank Leahy notched three goals to give Guelph a 5-2 victory.

Swimming and Diving

Seven Gryphons will head for nationals at UBC this weekend led by Avril Peaker, Anne Menzie, Brenda Banning, Laurie Ross, Carol Edwards, Ian James and Dan Hurnik.

Track and Field

The indoor track and field Gryphons will head for York this weekend to take part in the Ontario championships.

Over this past weekend Janet Beatty was first in both the 1,500 and 1,000 at Toronto, while at Saskatoon in the Canadian Open Championships, Silvia Reugger placed fifth in the 1,500 and fourth in the 3,000.

Gryphon of the Week

Goaltender Louis Malbeauf of the hockey Gryphons has been named "Gryphon of the Week" for the week of February 22 to March 1 for his two outstanding performances against McMaster in the OUAA semi-finals.

The 5'8" Sudbury native turned back 34 shots in each game to lead the Gryphons to 2-1 and 5-2 victories and a berth in the finals against the Toronto Blues.

Gryphons Named All-stars

Two more OUAA and two OWIAA all-star teams were announced last week, with Gryphons receiving honors in all four.

Named to the first OUAA West Basketball team was Tom Heslip (fourth time — two firsts, two seconds), while Mike Sesto (third time) and Mark Scott (first time) were picked for the second team.

The OUAA volleyball team was also announced with Vilis Ozols earning his second straight berth. He garnered the most first place votes and led the team in kills and aces in all matches.

The OWIAA West's Basketball all-star teams will have three Gryphons with Karen Grisewood (first time) and Sue Lindley (fourth time) being named to the first team and rookie sensation Cindy McMaster to the second team.

The OWIAA's hockey all-star team will also carry the name of Guelph's Tina Vlad, an exceptional defenceman with the Gryphons this year.

Aikido Workshop

The Department of Athletics is offering a weekend aikido workshop on March 6 to March 7.

The instructors will be Michael Langford (second degree black belt) and Bruce Stiles (fourth degree black belt).

Classes will run Saturday and Sunday at 10 a.m. to 11:30 a.m. and 2 p.m. to 3:30 p.m. For more information, contact Dr. Colin Kelly at 8244120, Ext. 3974.

Soccer Award

Gryphon head coach Colin Kelly was honored at the annual general meeting of the Ontario Soccer Association when he was presented with the President's Award for "outstanding contributions to the coaching and player development program." □

The Department of Athletics recently honored captain Tom Heslip of the basketball Gryphons for his five years in a University of Guelph uniform. He became the top career scorer for Guelph and ended his Ontario Universities Athletics Association (OUAA) career in fourth place. Above, Dr. Jim Stevens, Assistant Vice-president, Academic, presents him with a plaque.
