

GRANT MCLAREN - STANDOUT

GUELPH TEAMS HOST GAMES

Both faculty and staff participated in two recent intercollegiate sports events held at the University of Guelph.

Forty-seven runners representing seven Canadian universities competed in the Ontario-Quebec Athletic Association Harrier Championships. The Guelph runners, putting forth a fine effort, finished third, their best finish ever in the Championship meet.

Grant McLaren, (B.Sc.,5) the University's star runner, triumphed over a strong field, winning by a 250 yard margin. He was ahead of the 1967 Champion, the University of Toronto's Dave Bailey, Canada's first sub-four-minute miler. This is Grant's second O.Q.A.A. title, as he previously won the three mile track championship at Windsor in October.

The five mile, one thousand yard course, enclosed completely within the campus,

was layed out especially for the Championships by Dr. Vic Matthews (Languages), Harrier coach, and Mr. George Smith, Animal Science.

The team, which consisted of about twenty boys throughout the season, finished behind the University of Waterloo and the University of Toronto. McMaster finished fourth, Queen's fifth, McGill sixth, and Western last.

Other Guelph scorers were Grant Mustard (B.Sc.Ag.1), Jack Gailbraith (D.V.M. 1) and Barry Snider (B.Sc.4).

The following day Freelton was the scene of the first Ontario Inter-Varsity Orienteering Meet. The event, marked by invigorating fall weather, attracted forty participants from four Ontario universities; Waterloo, Queen's, Western Ontario, and Guelph.

The Gryphons, finished second behind the Queen's team, were paced by Bill

Library Tours

Faculty members who wish to tour the McLaughlin Library may do so at 4:00 p.m. on Monday or at 5:00 p.m. on Thursday throughout the month of November.

If neither of these times is convenient please send your name and University telephone extension number to the Library Information Desk and indicate when you would like to have a tour arranged. The Library staff will try to accommodate you.

McElain, 5th, Grant McLaren, 6th, Barry Snider, 9th, and Jack Galbraith, 14th. Guelph also entered a second team led by Duane McCartney and Dave Bastedo.

Jill Haythorntwaite won faculty honors for the University of Guelph.

The start.....

The finish.....Grant McLaren

Dr. B. C. Matthews Addresses Registrars

"What is the role of the University in contemporary society? What is the role of the University in developing countries? What are some significant recent developments in Commonwealth University affairs? These were among the many questions studied at a Congress of the Association of Commonwealth Universities.

Dr. B. C. Matthews, University of Guelph, was one of the dele-

B.C. Matthews

The Association, which meets every five years, was holding its tenth meeting.

Dr. Matthews recently addressed a meeting of Registrars from Ontario Universities held at the University of Guelph and outlined some of the theme topics of the Congress.

"At the opening ceremonies in the Great Hall of the University of Sydney," Dr. Matthews reports, "one was acutely aware of the global nature of the Congress and the wide area of the world over which the University now exerts or is beginning to exert influence."

Dr. Matthews, who is Vice-President (Academic) at the University, found a similarity of problems of universities around the world. "While the problems differ in detail from one place to another, there are certain major similarities and the major themes of the conference seemed to have some relevance for all," he said.

Other topics under discussion included the relationship between the university and the state; the concern with the world's current preoccupation with science; and

the increasing numbers of students, Dr. Matthews reported.

A major point of concern which was discussed at the Congress was the change in student attitude. "Universities the world over are receiving a good deal of public criticism for their apparent inability to keep their house internally in order with respect to students, was a point made by many delegates," he said.

"It is no solution, but some solace, to say that this criticism may in some sense be unjustified in view of the fact that society generally has failed to cope successfully with the problems of the adolescent. Within the universities, however, such unrest takes on a particularly noticeable form because (1) it is the brightest and most articulate young people that attend universities, and (2) the opportunity for organizing the discontent is readily available on a University campus." Dr. Matthews said the Congress agreed on that point.

The problems which were the concern of the Congress in Sydney are significant and important ones for universities in Ontario Dr. Matthews found.

One is maintaining the quality of university education while the numbers of students and new knowledge increases. "The growing sizes of classes and the overloading of courses may decrease the opportunity for, and the challenge to, students to think deeply" he said. "The answer has direct repercussions on the staff - student ratio and therefore on the operation costs of the University. This means greater demands on the public purse," Dr. Matthews pointed out.

A second problem is the need for modification of the administrative structure to ensure adequate consultation and a flow of decisions. The best decisions are usually those based on discussions

with people whom they most concern. Frequent and easy communication in a spirit of good will and mutual respect is an absolute necessity in our Universities, he said.

Dr. Matthews concluded, "We must be constantly alert to improve the quality and relevance of education. We need more information about each of our universities concerning the factors that determine student success and failure. I have mentioned several problems that are with us now. As Registrars you may disclaim full responsibility for their solution. But as central officers in your Universities you cannot avoid involvement."

Public Lecture

There will be a public lecture by Professor Nguyen Huu Chi on "The War in Vietnam: A Confusing Issue".

It will be held on Thursday, November 14, at 8:00 p.m. in Room 200, Chemistry Microbiology Building.

A native of North Vietnam and presently an assistant professor at Queen's University, Kingston, Ontario, Dr. Chi was a special assistant to the Prime Minister of South Vietnam in 1965, the Governor of Quang Nam (a South Vietnamese province near the DMZ) in 1966, and the Minister in charge of Political Affairs under President Nguyen Van Thieu in 1967.

Dr. Chi will also speak in a seminar on "The Problems of Modernization of South Vietnam".

It will be held on Friday, November 15, at 11:00 a.m. in Room 118, Arts Building.

FACULTY AND STAFF SKI SCHOOL

Chief Instructor: Professor A. Peepre. First get-together and registration: Physical Education Building, Lecture Room 1, on Monday, November 18th, 1968, at 8:00 p.m. The membership is limited to 45 faculty and staff.

APPOINTMENTS

Dr. Gordon James King has been appointed to the faculty of the Department of Animal Science as Assistant Professor with teaching and research responsibilities in the area of Applied Physiology.

Dr. King graduated first from the Ontario Veterinary College in 1959 following a

G.J. King

short career of public school teaching in Toronto. After graduation Dr. King practiced in Georgetown for one year and then accepted a position as field veterinarian and technical director at the Hamilton District Cattle Breeding Association. While employed by this organization he initiated an intensive technical retraining program for inseminators and introduced improved laboratory procedures.

Dr. King was involved in several research projects during his association with the artificial insemination industry and this work stimulated his interest in post graduate studies. He enrolled in the Graduate School at the University of Guelph in 1966 and studied for his Master of Science and Doctor of Philosophy degrees.

Awards

L. P. Rafferty - from Assistant Registrar, Liaison to Assistant Registrar, Awards. Ext. 3143.

Liaison - to be appointed

Dr. Robert Lawrence Peterson has been appointed Assistant Professor in the Department of Botany.

Dr. Peterson was born in Strathmore, Alberta. He

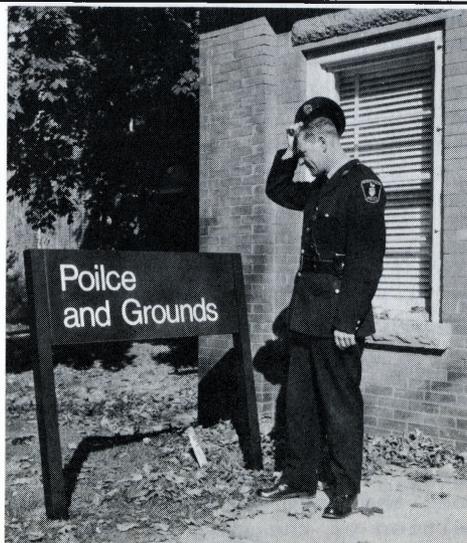

R.L. Peterson

received a B. Ed. degree from the University of Alberta in 1962, winning a Queen Elizabeth Scholarship and a University First Class Standing Prize. This degree was interrupted by two years' teaching in the secondary school system of Alberta.

Dr. Peterson obtained an M.Sc. in Botany from the University of Alberta in 1964, and a Ph.D. from the University of California, Davis in 1968. While at Davis he was selected as a member of Phi Kappa Phi, a National Scholastic Honor Society, and as an Associate member of Sigma Xi.

Dr. Peterson's responsibilities in the Department of Botany include teaching undergraduate and graduate courses in Plant Morphology. His research will be concerned with the anatomy of roots, and with morphogenetic and ultrastructural studies of ferns. His wife, Carol, is carrying out postdoctoral studies, also in the Department of Botany. The Petersons have one son, Ryan.

Polizia? Polizei? Politsia? Police?

Concentus Musicus Uienna

The world famous Austrian Chamber Orchestra, Concentus Musicus Vienna, will perform at the University of Guelph. The concert will be held in War Memorial Hall on Tuesday, November 19 at 8:30 p.m.

The orchestra is currently engaged in a tour of the United States and their concert at Guelph will be their only appearance in Canada.

The program they will feature will be varied with Austrian Baroque music in the first half.

This group of fourteen musicians flawlessly performs the works of Johann Sebastian Bach, Heinrich I. R. Biber, Johann Josef Fux, Georg Philip Telemann and Antonio Vivaldi.

They perform on original instruments created by such masters as Jokobus Stainer, (1665) Matthias Albanus (1712), Andrea Castagneri, (1744) Marcellus Hollmayr, (17 Century), A. Grenser, (around 1750), and others.

The concert is sponsored by the Student Union Council and tickets are available at the Union Council office, Bursar Hall. General admission is \$2.50 and student tickets are \$1.50.

FACULTY ACTIVITIES

Miss M. Cameron, Mrs. E. Tom, Mrs. J. Hill and Mr. R. Logan, of the Library staff attended a Conference on Book Catalogs (library catalogs in book form) held in Kitchener by the Midwestern Regional Library System.

Mrs. Beckman and Mr. L. Porter of the Library staff attended the annual meeting of the American Society for Information Service in Columbus, Ohio.

Professor Hathorn, Languages, recently attended a two-day colloquium in Ottawa dealing with the present state and history of French-Canadian studies in Canada. The conference was held to celebrate the University of Ottawa's tenth anniversary of the founding of its Centre de recherches en litterature canadienne-francaise.

Elton Yerex, Fine Arts, has had a painting accepted for the 2nd Society of Canadian Artists' Exhibition in the Toronto Dominion Centre.

The Director of the School of Physical Education, Dr. John T. Powell, gave the keynote address "Olympic Aftermath" at the Kitchener-Waterloo Minor Track and Field Association's Annual Banquet.

Professor Evelyn Bird, School of Physical Education, recently presented two divergent papers in the United States. She presented a paper and led an activity session in Women's Track and Field at the Eastern Association of Physical Education for College Women, held in Boston, Mass. She was also one of four women presenting papers among the 100 given at the 2nd International Congress on Sports Psychology in Washington, D.C. Professor Bird's topic was "Personality Characteristics of Eastern Canadian Intercollegiate Women's Athletes". The Canadian representatives made up the largest foreign delegation at this Congress which indicates an increase in research in the new area of Sports Psychology.

Dr. Eiju Yatsu, Geography, has conducted a series of seminars at McGill University at the invitation of their Department of Geography. Dr. Yatsu, whose book ROCK CONTROL IN GEOMORPHOLOGY has become the standard reference on the subject conducted seminars at McGill on the following topics: "An Approach to Rock Control in Geomorphology"; "Some Problems of Fluvial Sediments" and "Landforms - Material Science". The Department of Geography of the University of Guelph feels greatly honoured that one of its members has been invited to present a Seminar series in Geomorphology at a university which has one of the strongest programs in Geomorphology on the continent.

Professor H. K. Malinowski, Agricultural Engineering, attended a seminar on "Tall Buildings in Reinforced Concrete" presented by the Canadian Capital Chapter A.C.I. in Ottawa. Professor Malinowski also attended a meeting of the Canadian Institute of Steel Construction in Toronto. The theme of the meeting was "Design and Construction of Suspended Cable Structure".

At the annual meeting of the Society for the Scientific study of Religion held recently in Montreal, Dr. T. W. Settle, Philosophy Department, read a paper entitled "On Ceasing to Believe Because there are no Good Reasons to Believe."

Dr. Janet Wardlaw and Prof. Mary Schultz attended the meetings of the Dietetic Section of the Ontario Hospital Association which were held in Toronto. Dr. Wardlaw spoke on "A Look at the Future in Dietetics" and Prof. Schultz on "A Practical Approach to Employee Training."

Victor J. Matthews, Lecturer, Languages, has received a Ph.D. in Greek from the Queen's University of Belfast, N. Ireland. His doctoral thesis took the form of a critical edition of the work of the Greek epic poet Panyassis.

Dr. C. G. Waywell, Horticulture, has just returned from the 22nd Annual Meeting of the Eastern Section, National Weed Committee held in Halifax. He was a contributor and project summarizer. Dr. Waywell discussed and agreed on the suggested weed control recommendations for Eastern Canada.

Professor A. Peepre, School of Physical Education attended on invitation, the Ontario Sports Conference held in Toronto. The two-day conference was called by the Ontario Department of Education under the auspices of the Honourable William G. Davis, to collectively identify the immediate needs of amateur sport in the province and what actions and methods should be implemented to improve the present status of amateur sport and fitness and what the government role should be in developing better facilities and leadership.

Dr. Louise Colley, Co-ordinator of Continuing Education in Wellington College, recently attended a seminar at McMaster University on part-time degree programs. Professors from the University of Edinburgh, the University of Hull, England, and the Universities of Buffalo and Rochester, New York, were present as resource participants. Representatives of Extension and Summer School Departments from nearly every University in Ontario were present. Dr. Colley also participated in a meeting of Summer Schools and Extension held at the University of Windsor on November 1st. Discussions on the changing functions of Extension Departments and the role of the University in "Extension" or "Continuing Education" highlighted both these meetings.

Dr. Patrick Kyba, Political Studies, has received a research grant of \$1500 from the Canada Council to complete his study of British Attitudes Toward Disarmament and Rearmament: Public Opinion and Decision Making in Great Britain - 1932-1936.

FACULTY

- Cont'd

Dr. Ken Kelly, Dr. K. C. Tan, Miss Alexandra Semeniuk and Mr. Harold Swierenga, Geography, attended the Fourth Inter-University seminar on Resources Development in the Emerging Nations held at the University of Windsor.

Dr. John T. Powell, Director, School of Physical Education, gave two lectures at the U.S. Marine Fitness Academy last week. The titles of his subjects were "The Forgotten Factor, Endurance" and "Military Physical Fitness".

Professor Frank Theakston, School of Agricultural Engineering, attended a meeting of the National Joint Committee on Student Counselling for Engineers held in Ottawa. He also represented the Canadian Society of Agricultural Engineers at a meeting of the Canadian Association of Engineering Societies held in the same city.

Prof. Norman Pearson, Centre for Resources Development, recently addressed students from Kitchener-Waterloo Collegiate; spoke to the Canadian Institute on Pollution Control Conference on "Legal and Administrative Aspects of Pollution Control" in Hamilton and was interviewed on CKCO-TV; and presented the "Regional Plan 1968-72" to the Directors of the Georgian Bay Regional Development Council in Midland.

Dr. Gianni Bartocci, Languages, speaking in Italian addressed the Dante Society of Toronto on the theme "Pirandello Romanziere" - (Pirandello as a Novelist).

Dr. H. Tiessen and I. L. Nonnecke, Horticulture, attended the second International Biennial Conference of the North East Vegetable Greenhouse Growers held in Windsor at the Sheraton Viking Motel.

Mr. W. J. Temelini, Languages, was present at a lecture given at McMaster University, when Professor Danilo Aguzzi-Barbagli spoke on "Italian Renaissance Concepts of the Gentiluomo and Spencer's Faerie Queene".

Dr. R. A. Barrell, Languages, has been recommended by the Board of Governors and the Committee and Associates to membership in the International Platform Association.

Dr. E. U. and T. B. Irving of the Department of Languages attended the current AUCC meeting on Canadian - Latin American Inter-University Cooperation which was held in Ottawa. They also attended the inaugural meeting of the Latin American Studies Association which was held at the Hotel Biltmore in New York City.

Dr. W. H. A. Wilde, Zoology, has been elected chairman of the Agricultural Committee of the Guelph Chamber of Commerce succeeding Prof. W. Ewen who is now second vice-President of the Guelph Chamber for 1968-69.

Dr. D. C. Jordan, Microbiology, attended the 8th Interscience Conference on Antimicrobial Agents and Chemotherapy, in New York City.

Dr. Elizabeth Waterston, English, addressed the members of the Guelph Area Convention of the Women's Institute held at the Italian-Canadian Club. Her topic was "Home - In Spite of the Country".

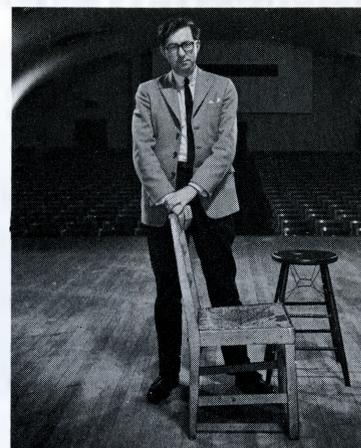

Dr. R. A. Barrell, Languages, has been elected to membership in the International Platform Association.

The IPA is a 65-year-old organization which was brought into existence by Mark Twain, William Jennings Bryan, Theodore Roosevelt, Carl Sandburg, President William Howard Taft and other celebrities.

The membership has included such persons as John F. Kennedy, Lyndon Johnson, Franklin Roosevelt, Drew Pearson, Hal Holbrook, David Brinkley and J. Edgar Hoover.

Members of the association have been instrumental in bettering the quality of the American platform, not only as it applies to the booking of celebrities, but the important field of school assembly programs.

"Words Alone Are Certain Good"

Professor Brian Parker

How far should a director go in "interpreting" classical English plays, particularly those of Shakespeare? This is the question that will be posed by Professor Brian Parker at a public lecture to the University of Guelph on Thursday, November 21 at 4:15 p.m. in Room 107 of the Arts Building. In an address entitled, "Words Alone Are Certain Good," Professor Parker will consider the limits of interpretation, drawing most of his examples from Stratford, Ontario, whose annual Shakespeare Seminar he helped to inaugurate in 1958.

Professor Parker is Director of the Graduate Centre for the Study of Drama at the University of Toronto. He comes to this post from the Universities of Liverpool and London, and from the University of Birmingham's Shakespeare Institute, where he took his Ph.D.

Three years of lecturing in the United States followed, as a Fulbright post-doctoral fellow, before he came to Trinity College, University of Toronto, in 1960. Professor Parker was one of the first speakers at the Shaw Seminar at Niagara-on-the-Lake, and he has held several research fellowships.

Numerous articles on Elizabethan and modern drama include one on Shakespeare and Brecht that was awarded a medal as the best Canadian academic article in 1963. His scholarly edition of Thomas Middleton's *A Chaste Maid in Cheapside* will be published in Methuen's series "The Revels Plays" early year.

SHERBROOKE VISITORS EXCHANGE VIEWS

From left: Dr. J. B. Racine, University of Sherbrooke, Dr. F. A. Dahms, Chairman, Department of Geography, Dr. H. Raymond, also of Sherbrooke.

The Department of Geography played host to two visitors from the Department of Geography, University of Sherbrooke, Quebec. The visit of Dr. J. B. Racine, Chairman of the department at Sherbrooke and Dr. H. Raymond, Professor of Economic Geography was financed by an Ontario Government Grant to promote bilingualism and biculturalism.

The visitors met with all members of the Department of Geography and exchanged views on research and on problems common to rapidly expanding Departments of Geography. It was discovered that Drs. Racine and Dahms are conducting almost identical research in Montreal and Toronto respectively. Information was exchanged and this research is now to be

co-ordinated so that useful comparisons may be made between the results. Dr. Racine consulted with Professor Norman Pearson on the establishment of a Centre similar to our Centre for Resources Development, at Sherbrooke.

Student exchanges were discussed and tentatively arranged. It is hoped that several Sherbrooke students will come to Guelph to study Geomorphology, while several Guelph students will go to Sherbrooke to specialize in Transportation Geography. A joint Autumn field camp is to be arranged for Honours students in both departments. Hopefully this can become an annual event with the site alternating between Quebec and Ontario.

The visitors from Quebec expressed a deep and continuing interest in close inter-departmental and bicultural relationships. They have invited members of Guelph's department to Sherbrooke for a week next March. Dr. Eiju Yatsu of this department has been invited for a semester, if it can be arranged, to present a short course in Rock Control in Geomorphology.

DR. DENNIS HOWELL WILL HEAD OVC

When Dr. Dennis G. Howell takes over as Dean of the Ontario Veterinary College in January he is going to follow the straight and narrow path.

"I don't anticipate turning this place upside down," he said in an interview. "I intend to follow the same line as Dr. Jones."

Dr. Howell came from England to join the faculty as Associate Dean, Research, at O.V.C. in August, 1967. Previously he had gained wide experience in veterinary research and in industry.

During the past year he has been responsible for co-

ordinating the many research programs under way within

D.G. Howell

the Veterinary College and as Dean hopes to continue supervising that program and, if possible, do research of his own.

When the announcement was made, Dr. Jones commented on the appointment of Dr. Howell: "I had no choice in the selection of a Dean from all the applicants. But secretly I wanted Dr. Howell

to get the position."

In announcing the appointment, Dr. Winegard said, "I have every confidence that Dr. Howell will provide fine leadership to the Ontario Veterinary College. He had an outstanding academic record at the Royal Veterinary College, University of London, from which he graduated in 1951. His war record is equally impressive. Serving with the Royal Engineers from 1939 to 1946, he attained the rank of Lieutenant-Colonel at the age of 24."

Although Dr. Howell does not relish the thought

Cont'd on page seven

Dr. McCready Plans to Travel

Whenever people think of Macdonald Institute they invariably think of Dr. Margaret S. McCready.

Last week when a news release said that Dr. McCready had relinquished her position as Dean of the college and that she would go on leave, people naturally assumed she would retire.

Dr. McCready does not plan to retire. However, neither does she foresee another administrative position...on the North American continent.

I'm not quite sure what I want to do. I want to travel and look around. You might say this is my belated sabbatical," she said in an interview.

M.S. McCready

As a starter, Dr. McCready who was last summer elected to the executive of the International Federation of Home Economics, plans to attend their January, 1969 conference in Germany.

While I'm there, I want to investigate the possibilities of work abroad, maybe by helping a developing country in the field of home economics and setting up a college."

"But I still don't know; it's all up in the air," she said.

Having been Dean for nineteen years, Dr. McCready does not feel sad about leaving Macdonald Institute. She feels that "now is the time to make the break" and under a new curriculum and a new dean the institute will "be in good hands.

"I'm willing to sit back and watch. Early specialization, that's what the students want."

She was referring to the new program the institute will probably incorporate next year, a more specialized program based on two main areas: consumer studies and family living.

"Actually it doesn't matter whether or not the students specialize early, as long as you give them the works. Me, I started out in dentistry, then dabbled in modern languages, then switched to physical education but gave that up when my father advised me to to (physical education didn't offer degrees in those days), and I ended up in home economics."

When the conversation switched to the rewards one gets from being dean, Dr. McCready brought forth a letter from one of her former students and said, "The most rewarding thing of all is when I receive letters like this from my graduates."

The letter, from Miriam Leith, read:

"I'm registered at the university of Saskatchewan in Continuing Education and am taking a full course load and one audit but am not worrying about credit. I'm much more interested in learning! Most of my courses are very stimulating and helpful. I was pleased to find that I'm the youngest in most of my classes and since all are seminar type, I'm able to draw on their wisdom and experience."

When Dr. McCready departs in January she will have left behind her a tradition of the finest quality. Through her leadership, Macdonald Institute has come to be regarded as the top school of its kind in North America.

As Dr. McCready leaves the university and enters upon a new stage of her life in the international field of home economics, she will share on a larger scope all the attributes her graduates through the years have admired: her graciousness, her dedication and her keen sense of humor.

Cont'd from page six

of radical change at O.V.C. he would be the first to admit "that the times are changing."

"Dr. Jones would agree with me every step of the way that veterinary schools can't turn out "complete scholars" as they used to. There are just too many new discoveries today; a person would have to stay in school practically all his life to learn all there is to know about veterinary science."

Dr. Howell firmly believes that "every veterinary school in this moment in time must look carefully at itself. This rapid surge of knowledge started at the end of World War II and the pace shows little sign of slowing down.

"We propose to set up a program which first will acquaint the student with the scientific basis of medicine, and then allow him to specialize. The program would involve fewer facts than traditional programs but teach him to think. Later, with this foundation, the student may choose his specialty field."

The Dean Designate says that even the old fashioned country vet now needs specialty training to meet the demands of his practice. "The work has become much more sophisticated today, and we are trying to get veterinarians who have been in general practice for a long time to come back and take refresher courses," he said.

Dr. Howell does not plan to stay tied down to his desk. "I will travel...to get a wide experience in the world outside Guelph and to study the future needs in veterinary science."

HOUSING

Housing for postgraduate Czechoslovakian student, wife and three children. Reasonable and by Dec. 1. Preferably furnished. Ext. 3357.

NEXT WEEK AT GUELPH

THURSDAY, NOVEMBER 14

- Meeting CUSO information meeting featuring a returned volunteer from the University of Waterloo, Room 107, Arts Bldg. 7:00 p.m.
- Seminar Genetics Seminar. Speaker: F. Townley-Smith, Crop Science. Topic: Male-sterility in timothy. Room 116, Crop Science Bldg. 4:10 p.m.
- Seminar Anatomy Department Seminar. Speaker: Dr. K. Hoshino, Dept. of Anatomy, University of Western Ontario. Topic: Morphogenesis in the transplanted mammary gland. Room 207B OVC. 4:00 p.m.
- Noon Hour Series Two lectures by P. J. Spensley and James Murphy, Drama Division. Room 107, Arts Bldg. 12:10 to 12:45 and 1:10 to 1:45 p.m.
- Lecture Professor Nguyen Huu Chi, a native of North Vietnam and presently a Professor at Queen's University. Topic: The War in Vietnam: A Confusing Issue. Room 200, Chem. Micro. Bldg. 8:00 p.m.
- Showcases Canadiana Crocks from the collection of Mr. Dewayne Deacon, Hamilton, Ontario will be on display in the showcases, south corridor, Arts Building to November 26.

FRIDAY, NOVEMBER 15

- Seminar Professor Nguyen Huu Chi. Topic: The Problems of Modernization of South Vietnam. Room 118, Arts Bldg. 11:00 a.m.

SUNDAY, NOVEMBER 17

- Film Three films, Swedish Cinema Classica, The Hunters and Nahanni. Room 200, Chem. Micro. Bldg. 8:00 p.m.

MONDAY, NOVEMBER 18

- Seminar K. L. Priest. Topic: Induction of fruit abscission at harvest. Room 36 Hort. Bldg. 4:00 p.m.

TUESDAY, NOVEMBER 19

- Concert Student Union Council presents CONCENTUS MUSICUS VIENNA - War Memorial Hall 8:30 p.m. (see details in this issue of the News Bulletin).

WEDNESDAY, NOVEMBER 20

- Seminar Genetics. Speaker: I. Takahashi, Institute of Molecular Biology, McMaster University. Topic: Genes controlling sporulation of Bacillus subtilis. Room 116, Crop Science Bldg. 4:10 p.m.

THURSDAY, NOVEMBER 21

- Noon Hour Concert Experimental Films by London Film Makers: John Chambers, Fraser Boa, Kee Dewdney. 12:10 to 12:45 and 1:10 to 1:45. Music Room 107, Arts Bldg.
- Theatre Moliere's Tartuffe. Ross Hall at 8:00 p.m. Tickets available at the office of Dean M.H.M. MacKinnon. Adults \$2.50. Students \$1.50.

.....
 • The News Bulletin is published each week by the Department of Information and edited by Mrs. Betty Keeling. •
 • Copy for the next edition must reach the editor, Room 361, McLaughlin Library not later than noon Friday, November 15, 1968. The News Bulletin is authorized as second-class mail by the Post Office Department, Ottawa, and for payment of postage in cash. •

British Scientist

to Visit OVC

During the week of November 18-22, Dr. Joan Taylor will be a visitor at the University of Guelph. Dr. Taylor is an international authority on enteric infections of animals and men.

As Head of the Salmonella Reference Centre of the Public Health Laboratory Service of England and Wales, she has been actively involved in Salmonellosis. She is a member of the United Kingdom Working Party on the Salmonella problem and has published extensively in this field. Her vital interest in the subject and her concern with the problem will serve to make this lecture of value to an Ontario audience.

Dr. Taylor is at present the President of the Section of Epidemiology and Preventive Medicine of the Royal Society of Medicine.

During Dr. Taylor's visit there will be two scheduled events available to you as listed below. In addition she will be visiting various laboratories and faculty members at the University of Guelph. If someone wishes to meet Dr. Taylor for special discussion Dr. D. A. Barnum of Veterinary Bacteriology is arranging her itinerary.

SEMINAR - Wednesday, November 20 at 3:30 p.m. in Room 207 B, Ontario Veterinary College.

SUBJECT - Pathogenesis of Enteric Infections.

OPEN TO FACULTY AND GRADUATE STUDENTS

LECTURE - Thursday, November 21 at 7:30 p.m. in Room 200, Micro-Chem. Bldg.

SUBJECT - Salmonella Infections and their Control.

OPEN TO THE PUBLIC
