

PROTEST

When interested students, staff and faculty members gathered on the pedestrian spine near Johnston Hall Thursday noon, they found members of the Students' Union Council in charge of the public address system.

For a while, it looked as though last week's meeting to discuss the Ontario university presidents' paper on law and order on campus was a case of who got there "fustest with the mostest."

After several speakers gave their reasons for supporting or rejecting the conclusions of the controversial document, a sound truck hired by the Guelph Student Movement rolled onto the grass and GSM members began presenting their own amplified views.

Confusion reigned for a few minutes as each group tried to shout the other down.

The GSM members, who pointed out that they had called the meeting in the first place, decided to accept the invitation of union council president John Flegg to use the council's PA system to present their views.

GSM members tried to convince the majority of the student onlookers that the statement of law and order was a potential threat to any type of dissent on an Ontario campus.

They circulated a petition among the crowd asking that since the document was formulated without the consent of Guelph students and faculty, President Winegard should withdraw his support from it.

The GSM also asked that a committee comprising an equal number of students and faculty and meeting in open session be elected for the "specific purpose of developing a realistic disciplinary code with due regard for the basic right of dissent."

Council president John Flegg told the 500 onlookers that the council members had certain reservations about the statement by the 14 Ontario university presidents. Much of the concern was over what was felt to be a certain vagueness in the wording of certain clauses in the statement.

Council had planned to hold an opinion poll of its membership on the presidents' statement before deciding if representation should be made on the Guelph student body's behalf to the administration about the statement.

Meanwhile, Dr. Winegard announced the formation of a special committee to look into student rules, rights and responsibilities. The President said the idea for the committee had been formulated four months ago but the announcement had to be delayed until its basic composition was finalized.

PRESIDENT'S COMMISSION OF INQUIRY — STUDENT RULES, RIGHTS AND RESPONSIBILITIES

A President's Commission of Inquiry on Student Rules, Rights and Responsibilities has been established.

T. J. Hulland

Dr. T. J. Hulland, Associate Dean, O.V.C. acting as Chairman, three faculty members and three students have agreed to serve on the Commission which will commence its deliberations as soon as possible. A fourth student is still to be appointed as a full delegate to the Commission. In addition there are two alternate committee members, one still to be appointed.

In announcing the formation of the Commission, Dr. Winegard has stated, "Its recommendations will have considerable significance on the future course of the University."

The terms of reference for the Commission are as follows:

The Commission is asked to review the

Continued on page two.

TWO ONE-ACT PLAYS BY DIVISION OF DRAMA

October 8 and 9, 1969

Dr. Michael R. Booth, Division of Drama, has announced the first presentations of one-act plays for this semester.

The Bear by Anton Chekhov, a farce concerning the intrusion of a grumpy landowner on the grief and seclusion of an attractive young widow, and **Sing to Me Through Open Windows** by Arthur Kopit, a poetic memory play about a childhood experience involving a clown and a magician are to be presented. Admission is free to the performances to be held Wednesday and Thursday, October 8 and 9, at 8 p.m. in the Drama Workshop.

The Bear is directed by Beatrix Barabas, a seventh semester Honors student in Drama and Fine Art, as part of her course work in Drama 360, Advanced Studies; among those in the cast are Chris Golding and Charlotte Weisberg. The Kopit play is directed by a faculty member in Drama, Bruce Koenig, and the cast consists of Charles Jones, Philip Craig, and Jerrold Karch. As usual, Drama students are entirely responsible for technical production and backstage work.

COMMISSION — *continued from page one*
following areas,

- a. Student rules, rights and responsibilities;
- b. The role of faculty with respect to student rules, rights and responsibilities;
- c. The implications on discipline of local, Provincial and Federal statutes;
- d. The special status, if any, of the University of Guelph within society;
- e. The obligation of academic and non-academic administrators of the University of Guelph to make independent responsible decisions in matters affecting continued operation of the University;
- f. Existing disciplinary procedures;
- g. To make recommendations regarding University disciplinary structures and procedures as they relate to the Commission's resolution of the above areas of consideration.

The committee includes: Dr. T. J. Hurland, Chairman; Dr. W. H. Hughes, Philosophy; Dr. W. E. Tossell, Associate Dean, OAC; Dr. C. Gyles, Veterinary Microbiology and Immunology; and three students, Mr. David Cresswell, who is studying Agricultural Science; Miss Gretchen MacMillan, an Arts student; Mr. Douglas Dodge, a graduate student in Zoology; Miss Margaret Phelps, the alternate student; and two to be appointed. The alternates participate fully in discussions but are non-voting members of the commission. The student representatives are appointed by the Students' Union Council.

REPORT FROM BOARD

Friday, September 26, 1969

The Brief of the Committee on Academic Priorities, to be submitted to the Committee on University Affairs, was the major item dealt with by the Board of Governors at the September 26 meeting, President Winegard reported to the information meeting Monday afternoon. The Brief, drawn up by a Senate committee of faculty, students and administration and chaired by Vice-President Matthews, includes in particular:

— Enrolment projections, faculty by faculty and year by year for the period up to 1975.

— An indication of the new or expanded programs which our institution contemplated developing during the period in question, as well as items of a particular nature which we felt were unique to the University of Guelph.

— The extent and anticipated cost of further expansion of physical facilities contemplated.

— The basis on which our institution had established its goals and how those goals related to total provincial requirements.

The working paper on Order on the Campus, put out by the Committee of Presidents of Universities of Ontario, also came up for discussion. The Committee has invited each university to use the document as working paper for the development on each campus of an appropriate statement of policy regarding the handling of incidents of violence or the obstruction of the universities' processes.

APPOINTMENTS

AGRICULTURAL ECONOMICS

Peter J. Barry, Assistant Professor;
Thorald K. Warley, Professor and Chairman;

SOIL SCIENCE

Michael E. Brookfield, Assistant Professor;
I. Peter Martini, Assistant Professor;

CLINICAL STUDIES

James N. Smart, Lecturer;

PATHOLOGY

Owen J. Slocombe, Assistant Professor

CHEMISTRY

Richard M. Epand, Visiting Assistant Professor;

Robert McCrindle, Professor;

MATHEMATICS AND STATISTICS

David P. Flemming, Associate Professor ;

PHYSICS

John J. Simpson, Assistant Professor ;

SCHOOL OF PHYSICAL EDUCATION

John R. Bruce, Assistant Professor.

MOTIONS ADOPTED

Fees for Make-Up Year (Graduate Students)

"That the tuition fee per semester for graduate students enrolled in a make-up year program be the same as the students in the corresponding undergraduate programs."

Transfer of Course Fees Between Universities for Co-Op Graduate Programs

"That the Board approve the Senate recommendation that a uniform fee be paid by the Home University (which retains all formula income in respect of the student) to the host University; and further, that for 1969/70 this fee be \$500 per year course and \$250 per half year course, and that the student pay no fees to the host University."

BOARD APPOINTMENTS

"That Dr. G. K. MacLeod (a Senate representative) be appointed to the Finance Committee, effective September 26, 1969."

"That Mr. R. S. Ritchie and Mrs. F. A. Walden be the Board of Governor representatives on the Committee on University Structure, Organization and Government for 1969/70."

Convocation Tomorrow

A Stratford Festival Director will receive an honorary Doctor of Laws degree at the University of Guelph Fall Convocation, Friday, October 3.

Monsieur Jean Gascon, Executive Artistic Director of the Festival, will receive the award at the 3 p.m. ceremony.

One hundred and seventy-three students will receive degrees, a record number for a Fall Convocation. Bachelor of Arts degrees will be conferred on 147 graduates and 22 will receive Bachelor of Science degrees. Three graduates will receive the B.Sc. (Agr.) and one will receive the D.V.M.

Highlight of the afternoon will be the convocation address by Monsieur Gascon, who is being honored for his contribution

to theatre in Canada.

One of the founding members of the Theatre du Nouveau Monde in Montreal, he has been the recipient of many awards during his brilliant acting and directing career.

Professor Neil Carson, Department of English, who was associated with the Stratford Festival this summer, commented on Monsieur Gascon's work. "He is now," he points out, "possibly the best director in Canada. His direction of *Tartuffe* and *Dance of Death* are highlights of theatre in Canada."

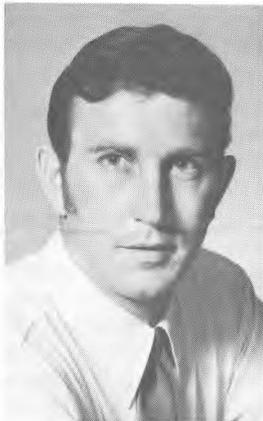

Originally bent on a career in medicine, Monsieur Gascon abandoned it for the stage, after considerable work with amateur groups in Montreal.

Retirement party for Dr. Oughton

Dr. John Oughton has retired after 23 years in the Department of Zoology. A reception in honor of Dr. and Mrs. Oughton was held in the Faculty Club attended by colleagues and friends. An expert in his field, Dr. Oughton was in Iraq for two years from the summer of 1959 to the summer of 1961 working for the World Health Organization section of the United Nations on the disease Bilharzia. He had a deep personal interest in his students. Dr. and Mrs. Oughton, perhaps more than any other member of the University community, have entertained foreign students in their home. Apart from his academic responsibilities Dr. Oughton has been involved in many community activities. He was a member of the Guelph School Board, the Guelph Library Board, the YMCA Board and supported many cultural groups as well. Shown from left during the evening are: Dr. Keith Ronald, Chairman of the Department; Mrs. Oughton, Dr. Oughton, Professor A. W. Baker, former Head of the Department of Zoology; Dr. S. F. Dixon and Professor H. W. Goble.

Appointment

Dr. J. R. Evans

Dr. Ieuan Rhys Evans has recently joined the Department of Botany as an Assistant Professor of Plant Pathology. Dr. Evans was born in Penclawdd, Swansea, Wales. He received the Bachelor of Science degree in Chemistry and Botany at the University College of Wales, Aberystwyth, in June of 1962. In June of 1963, he received an Honors degree in Agricultural Botany.

His post graduate studies were carried out in the Plant Pathology Department, University of Florida in Gainesville. These were

financed by the Thomas and Elizabeth Williams Scholarship awarded under the auspices of the Welsh Education Authority for a two year period. Subsequently, he received a research and teaching assistantship in the Department of Plant Pathology where his studies were carried out under the direction of Dr. F. W. Zettler. He was awarded the Ph.D. degree in August 1969.

In his position at Guelph, Dr. Evans will be working on field crop diseases with particular emphasis on virus diseases and their transmission by vectors. Also, he will be involved in the Department of Botany's teaching and extension program.

Dr. Evans is married to the former Kathleen Joann Caldwell of Miami, Florida.

EXPANSION CAUSES SECOND MOVE

Central Duplicating, the University-operated printing service, has moved to new quarters in Room 062 in the Physical Sciences building.

Originally located in the basement of Audio Visual Services building, the plant then moved to Johnston Hall where it remained until this week.

"We began operation in October 1967 with one employee — myself," says George Chrichton, supervisor. "We now have five, and should have eight in the next year."

China Program planned at Guelph

The University of Guelph is going to develop a program on Chinese Studies over a period of five years. A Vice-President's Advisory Committee on China Program was formed and Dr. John F. Melby, Chairman of the Department of Political Studies was elected Chairman of the Advisory Committee. A meeting of the Committee was held to discuss the coordination of the various departments on campus for an interdisciplinary approach toward the study of China.

For this semester, a slide show, a trip to the Royal Ontario Museum in Toronto, and a film on modern China will be arranged by the Department of Political Studies.

Mr. S.Y. Hsieh, Lecturer in the Departments of Political Studies and History and a member on the Advisory Committee on China Program, will present a slide show on China in Room 107, Arts building, at 8:00 p.m., on Tuesday, October 7.

The show is composed of more than 500 slides, most of them color. It is divided into four parts. The first part deals with China's geography. It proceeds from border areas and gradually comes to the centre of China. Included here are Tibet, Hsinchiang Uighur, and Inner Mongolian Autonomous Regions, the Northeast area (Manchuria), South China, and finally, the Yangtse and Yellow River valleys.

The second part introduces the Chinese history from the 18th Century B.C. down to the present moment. Each outstanding dynasty will be briefly described with the

help of historical maps and monuments as the Great Wall.

An understanding of China would be inadequate, however, if it were confined only to written records and did not extend to reliable artifacts for the reconstruction of the life of ancient society. The tracing of prehistoric Chinese culture thus constitutes the theme of the first half of the third part. The Peking man and the painted, black, and grey pottery culture of the neolithic period

will be treated here. These will be followed by the bronze vessels of the Shang Dynasty (1766-1122 B.C.), the development of the Chinese language, the brush painting, a discussion of the dominant schools of thought in China as well as the introduction of Buddhism from India into China and the legacy inherited therefrom.

Mr. Hsieh was born in Shanghai, China. He went to Taiwan in 1947, and received

his high school and college education there. He did his postgraduate work at the University of Chicago, of which he is now a Ph.D. candidate. He is writing his dissertation and expects to finish it next year. Before he joined the University of Guelph last January, he was a lecturer of the Department of East Asian Studies, University of Toronto.

Finally, the struggle between the CCP (Chinese Communist Party) and the KMT (Kuomintang) will be picked up as the subject of the last part. After a short review of the history, the achievement of the PRC (People's Republic of China) will be briefly covered. The remaining slides will show the efforts made by the KMT in establishing Taiwan as a modern society.

The whole show will last for 75 minutes. Throughout the presentation, Mr. Hsieh will serve as a commentator. For those who are interested in folk songs, it is noted that the Chinese folk music from various areas will serve as background music for the slides. Both the commentary and folk music will be recorded on tape in advance. Three screens and projectors will be employed simultaneously in order to make the presentation as clear as possible.

In terms of its scope, design, and richness, the show is the first of its kind in North America. It is also the first in a series that Mr. Hsieh has in mind.

After the show, Mr. Hsieh will answer questions raised by the audience.

AIC sponsors Klinck Lecturship

The food producing potential of the world's animal resources will be discussed in a special lecture on Thursday, October 2, in War Memorial Hall at 8 p.m.

Dr. Ralph W. Phillips will discuss the con-

Dr. R. Phillips

tribution which the world's animal population can make to meeting existing and future food needs. This will include consideration of the problems to be surmounted in making fullest possible use of this food resource and priorities for solving those problems.

Presently the Director of the International Organizations Staff of the U.S. Department of Agriculture, Washington, Dr. Phillips is on a coast to coast tour of Canada in the L.S. Klinck Lectureship Series sponsored by the Agricultural Institute of Canada.

In his discussion, the speaker will consider the competition between different animal species for most efficient use of land and capital resources, as well as the question of competition between man and animals for available food supplies. Further, there will be some consideration of the competition between synthetic food products and those of animal origin.

The role of modern technology in boosting the efficiency of animals as food pro-

ducers will also be presented. This will include discussion of such means as improved disease control, genetic improvement of animals, and management methods.

Dr. Phillips will also discuss the changes now taking place in the processing, marketing, and storage of food products of animal origin. He will offer his opinion of some traditional concepts of animal production, and their application to developing nations.

The L.S. Klinck Lectureship series is sponsored by the Agricultural Institute of Canada, the national body of professional agriculturalists. The series was established in Centennial Year in honor of the late L. S. Klinck, first president of the organization, and each year provides for an outstanding speaker on a national tour.

FACULTY ACTIVITIES

Professor P. H. Southwell, School of Agricultural Engineering, was chairman of the 4th International Agricultural Aviation Congress held at Kingston. Some 350 delegates attended from 28 countries. The theme of the Congress was "Progress through Cooperation" and 75 invited papers were presented in a program of 15 symposia designed to generate open discussion. One half-day was allocated to a demonstration of new equipment and included agricultural aircraft never previously seen in North America, such as the Kamov helicopter from the USSR. Aircraft were flown to the demonstration from as far away as Switzerland and New Zealand. The CBC Television program Country Calendar on Sunday, September 7th was devoted entirely to an account of the congress. The program incorporated film of the aircraft demonstration and interviews with delegates from Holland, France, Cuba, Israel, New Zealand, USA, Switzerland and Canada.

Dr. Gee Tsang, School of Agricultural Engineering, was invited to join with the Air Pollution Study Group of the Fluid Mechanics Laboratory, Massachusetts Institute of Technology, Boston for the past summer semester. The air pollution research at M.I.T. sponsored by the Edison Electric Institute and the U.S. Public Health Service, was a combined theoretical, laboratory, and field study. The part carried by Dr. Tsang was the theoretical study of (1) the concentration of effluent in a plume and (2) the diffusion of the effluent from the plume to the ground. Air and water pollution is a real menace to people and although there is much political talk about the problem, few people are actually working to avoid this future threat.

Professor Norman Pearson, Chairman of the Centre for Resources Development addressed the East York University Women's Club on the subject "Involving People in Planning."

Mrs. Renate Benson, Languages has been commissioned by the publishing firm Manesse Verlag, Zurich, Switzerland to translate *La Route d'Altamont*, a novel by the French-Canadian author Gabrielle Roy. Publication is scheduled for Spring 1970. Mrs. Benson has already published with the same firm a translation of *Le Torrent*, by the French-Canadian author Anne Hébert.

Professor H. Wiseman, Political Studies, will be addressing students and parents at the Waterloo-Oxford District Secondary School on "Extending Our Horizons."

Dr. O. S. Atwal has returned to the Department of Biomedical Sciences following a summer's leave-of-absence as a consultant in Anatomy to the Central University of Ecuador, Quito, on behalf of FAO/United Nations.

Dr. Gianni Bartocci, Languages, spent most of his Professional Development Semester in Italy doing research on L. Pirandello for which he received a grant from the Canada Council last April. In the course of his studies Dr. Bartocci visited Sicily and Bonn, West Germany. At the invitation of the University of Bucharest he spent over a month in Rumania attending courses on Rumanian language, literature, art and folk lore. The University of Bucharest has promised Dr. Bartocci that they will donate to the University of Guelph a set of Rumanian Classics, records, tapes and other audio-visual material.

Dr. John Powell, Director, School of Physical Education, was recently interviewed on the "See/Hear" show of Channel 13, Kitchener, about the Cardio Vascular Club class he conducts for faculty and staff at noon hour each day. He explained his theories of keeping people in sedentary positions healthy and described several of the exercises. Channel 13 is planning to do a film on the class with Dr. Powell doing the commentary, in the near future.

Professor Jean-Marc Beauchesne of Ottawa University and **Professor Norman Pearson**, Centre for Resources Development, were interviewed on Radio-Canada, Quebec Service, on the subject, "Planning for the Leisure Society."

Professor George Bedell, Director of the School of Hotel and Food Administration participated as Headline Speaker at the Mid-Western Food Services Show sponsored by the Canadian Restaurant Association in Saskatoon, speaking on "Management Essential for Today's Food Service."

Dr. J. F. Cote, Clinical Studies, spoke to the College des Medecins Veterinaires du Quebec at Sherbrooke, P. Q. The subject was "Maladies respiratoires chez les bovines." This year's annual meeting was the first at which speakers from outside Quebec participated.

Professor C. L. Duitschaeffer, Food Science, attended the American Cultured Dairy Products Institute Conference held recently at the University of Minnesota. The Conference is held annually to permit discussion of the latest research findings for all cultured and fermented foods. However, this year special emphasis was given to Yogurt a cultured dairy product of rapidly increasing importance in North America.

Dr. J. M. deMan, Chairman, Food-Science was an invited participant in the International Symposium, "Change in Proteins in Frozen and Dried Foods", held at the University of Aberdeen, Scotland. The Symposium was organized by the International Committee on Food Science and Technology and the North Atlantic Treaty Organization.

Professor A. M. Pearson, Food Science, attended the 52 annual convention of the National Dairy Council of Canada in Montreal. The Convention Theme was "Focus on the Future of Foods."

Professor A. M. Pearson, Food Science, was a guest speaker at the annual meeting of the Northern Ontario Dairymen's Association at North Bay. His address was entitled "Marketing Dairy Foods - As I See It."

Professor Norman Pearson, Chairman of the Centre for Resources Development was interviewed on radio station CFOS (Owen Sound) on the subject The Georgian Bay Regional Plan 1968-72, which was Project No. 1 of the Centre (1968).

Professor Roman Retman, Languages, attended the annual conference of the Societas Linguistica Europea in Vienna and the Second International Congress on Applied Linguistics in Cambridge, England.

Dr. P. K. Basrur, Department of Biomedical Sciences was at Jouy-en-Josas, France, to participate in an International Symposium on Intersexuality in dairy goats. Following the Symposium Dr. Basrur attended the 3rd International Symposium on Congenital Malformations at the Hague.

VISITORS

A field team headed by Mr. Samuel R. Pursglove of the Southeastern Cooperative Wildlife Disease Study has spent several days in the Department of Zoology. This group, conducting a survey of the parasites and diseases of woodcock in North America, was provided with facilities in the Department of Zoology while working in the Guelph area.

Dr. J. T. Feagan, Principal Research Officer of the Department of Agriculture, Adelaide, South Australia was a visitor in the Departments of Food Science and Animal Science, OAC and the Department of Veterinary Bacteriology, OVC. Dr. Feagan is in charge of the Dairy Research Unit at Northfield which was established in 1966 to conduct research on dairy technology, genetics and dairy husbandry.

Professor Yutaka Mizuma, Department of Animal Husbandry, Faculty of Agriculture, Tohoku University in Sendai, Japan, visited with Dr. Fred Jerome, Department of Poultry Science.

Miss Barbara Jamieson, Executive Secretary of the British Dietetic Association, was a recent visitor at Macdonald Institute. She came here after attending the International Congress of Dietetics in Washington.

Teresa Stratas coming to Guelph

The world-renowned soprano from the Metropolitan Opera will perform at the University of Guelph.

Teresa Stratas will open the Edward Johnson Music Foundation series on Friday, October 10 in War Memorial Hall.

Less than ten years ago, Teresa Stratas was an ex-night club and radio singer who knew only a few arias and one full opera. Today she is one of the top operatic artists of our time. Critics and audiences attending her performances on the great stages of the Metropolitan Opera, the Bolshoi in Moscow, Milan's La Scala, London's Covent Garden, the Staatsoper in Munich as well as the San Francisco and Chicago Operas have lavished the soprano with praise known to few artists of her generation.

In Leningrad the soprano was carried home from the opera house on the shoulders of an exultant audience; in Munich she swept a packed house into a record 43 minutes of tumultuous applause; in Moscow she received a twenty-minute standing ovation. At the Metropolitan she has won accolade upon accolade from the New York critics.

Born in Toronto, of Greek parentage, Teresa Stratas heard her first opera at sixteen, when Renata Tebaldi came to that city to sing Mimi in "La Boheme." At ten,

the future prima donna sang in a trio composed of her brother Nick, who played the violin, and her sister Mary, who was an excellent pianist.

At thirteen she made her professional

Teresa Stratas

radio debut on a local Toronto station. For two years she sang popular tunes, privately envisioning a future as a night club chanteuse. However, a radio technician advised her to try for a University of Toronto scholarship. Asked to sing an aria she obliged with the only "operatic" selection she knew, "Il Baccio." She won a full scholarship — four years of study at the Royal Conservatory under Irene Jessner — which she completed in three years.

In October of 1958 she made her debut with the Toronto Opera as Mimi in "La Boheme" under Walter Susskind. Critics called her "the baby Callas." A year later she won the Metropolitan Opera National Auditions, which led directly to her Met Opera debut as Poussette in "Manon."

Her appearances around the world since that time have caused critics to acclaim her as "radiant, ravishing in voice, face and figure", and have said of her, "the spiritual art of Teresa Stratas makes us forever unsatisfied with anything short of greatness."

Tickets for the concert are available from Mrs. Edith Kidd, Room 045, Arts building. Profits from the Foundation series will be directed to the Edward Johnson Memorial Fund which provides scholarships for promising music students in Guelph.

Future Predicted

Two separate groups meeting on the campus last Wednesday night got interesting glimpses of what the future might hold for mankind.

At the Guelph Canadian Club meeting, Prof. Donald Gordon of the University of Waterloo described the potential the television set held as an instrument of the communications revolution.

And at the Faculty Club, guests viewed a film, "1999 AD" produced by the Philco-Ford Corporation for its 75th anniversary and procured by club manager Lou Harris. The film showed that closed-circuit television, linked with computers would form the basis for much of household activity in the

world of the future.

Prof. Gordon told Canadian Club members that the linking of television sets to coaxial cables could literally put the world of information and communications within everyone's reach. He said it was entirely possible for a home to be linked through this cable with a wide variety of computer networks, giving access to unlimited information.

Following the Faculty Club film showing, the audience raised several interesting points about a computer-oriented society in a discussion led by Dr. Katsumi Okashimo, Director of the Institute of Computing Science.

BEGINNERS SWIMMING LESSONS FOR FACULTY AND STAFF CHILDREN

The Department of Athletics will be conducting swimming classes for beginners and advanced beginners beginning on Saturday, October 11, 1969.

The fee for 10 lessons will be \$5.00 payable at the desk, Physical Education Building.

If you are interested please provide the name, address, phone number and height of child before Friday, October 3, 1969 to the Department of Athletics.

The following "Terms of Reference"

will apply:

1. Children under 4'6" must be accompanied in the pool by an adult, preferably a parent.
2. Class members must provide their own towel.
3. Classes will be postponed occasionally to accommodate intercollegiate events.
4. These classes are for beginners and advanced beginners only.
5. All girls, and boys with long hair must wear a bathing cap while in the pool.

PERSONALS

- For rent — furnished house close to campus. Nov. 1 — Apr. 1. \$200 per month. Ext. 3357 or 822-1873.
- Room and Board for one male or female. 821-1864 after 5 or apply at 82 Beaumont Cres.
- For Sale — Weber upright piano — mahogany. Also continental bed. 821-6783.
- For Sale — '65 Renault convertible plus winter top. 821-3474.
- For Sale — men's insulated boots. Size seven. 824-0095.
- A flight is scheduled for Christmas to benefit students who want to be back for registration. Leaves Dec. 22 and returns Jan. 4. 821-1576.
- For Sale — 160cc Ducati Motorcycle. Excellent condition. Will trade for small automobile. Ext. 3556 or 821-2517 after 6.
- For Sale — '68 Ford Galaxie '500'. 821-2172 after 6.
- For Rent — 4 bedroom home, 1½ miles from campus. Sublet or renew lease. 821-7636.
- For Rent — Sublet from Nov. 1. 2 bedroom unfurnished apt. \$165 month. G. Fyfe, Ext. 3961 or 821-7244.
- For Rent — large, one bedroom apt. Available immediately. 821-5333.
- For Sale — '65 Volks. \$800. Ext. 3774.
- Wanted — garage or suitable space for storing boat in winter. 821-0498.
- For Sale — Parts from 1500, '62 Volks. 821-0498.
- Babysitting — Reliable babysitting weeknights and weekends. Eleanor — 824-9671.
- For Sale — 2 storey, 3 bedroom, 7 room house. Close to downtown. 822-4566.
- For Rent — 3 bedroom house, Victoria Rd., Ext. 3543 or 821-0877 after 6.

Appointments at Mac

Four appointments at Macdonald Institute have been announced this fall. Dr. Elizabeth Upton and Dr. Kathryn Kopf have joined the faculty as full time Professors and Dr. Jean Warren and Professor Mary Winter are visiting lecturers.

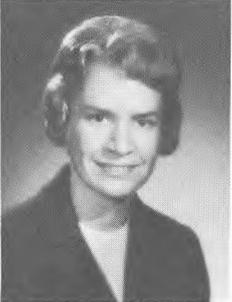

Dr. E. Upton

Dr. Upton received her B.A. and M.A. from the University of Toronto and completed her Ph.D. at Cornell University.

Dr. Upton was a member of the Faculty of Food Science at the University of Toronto from 1956 to 1962 and from 1965 to 1969. She completed her Ph.D. at Cornell with a major in Foods in 1965.

A member of Canadian and American associations relating to foods, dietetics and home economics, Dr. Upton is currently President-elect of the Canadian Dietetic Association.

Dr. K. Kopf

Dr. Kopf graduated from the University of California, Los Angeles, with a B.Sc. in Food and Nutrition. She received an M.A. in Family Development from the University

of Iowa where she also earned a Ph.D. in Educational Psychology.

At the University of Iowa, Dr. Kopf participated in the Preventive Psychiatry program, Institute of Child Behaviour & Development, and for the past three years held a joint appointment in the Colleges of Liberal Arts and Education and was Head of the Family Development area of the Department of Home Economics.

A member of the faculty of the Department of Family Studies, Dr. Kopf will teach human development.

Dr. Jean Warren is a visiting Professor in the Department of Family Studies for the fall semester. Born and educated in Ithaca, New York, Dr. Warren earned her Ph.D. with a thesis topic "Use of Time in Its Relation to Home Management."

This has been her professional interest and she has studied use of time by homemakers in California, Uruguay, Argentina, Puerto Rico, New York State and Arkansas.

Dr. Warren was active in extension work prior to heading the Home Economics Division on the Davis Campus of the University of California. She later taught in the Department of Household Economics and Home Management at Cornell from 1951 until her retirement in 1965. Since then she has been a visiting professor at several state universities and the University of Puerto Rico.

Professor Mary Winter will lecture for the fall semester in the Department of Consumer Studies.

Following her graduation from the University of Minnesota School of Home Economics Education with a B.S. degree, Professor Winter was associated with the Minnesota Agricultural Extension Department for three years.

She studied for her masters degree at Pennsylvania State University in Family Economics and Home Management with emphasis in Housing.

Professor Winter is now completing her Doctorate at Pennsylvania State majoring in Housing.

NOON HOUR SERIES

October 9th Program

Miss Teresa Cosgrove of the Department of Fine Art will present a program of direct creative work with film and projection which was done by participants in the experimental classes in 1968 at the National Gallery.

Miss Cosgrove was one of several artists involved in this research on film as a medium for art education.

Mr. Maurice Stubbs, former Associate Curator of Education of the National Gallery and now Curator of the MacKintosh Art Gallery, University of Western Ontario, and who was in charge of the project, has kindly agreed to assist with the presentation.

POST OFFICE ON CAMPUS

Johnston Hall Room 37

Many delegates to conferences being held at the University are surprised to find a Post Office on campus.

The services of the Post Office includes stamps, stationery, snacks, candy and cigarettes and cards.

If your group is planning a convention here include a note of the services of the Post Office in your brochure. The information will be helpful to visitors.
