UNIVERSITY OF GUELPH

Spring Convocation

Honorary degrees for three Canadians

A western educator, author and politician, an eastern economist, and an illustrious agricultural businessman and long time supporter of the Guelph campus will be honored at Spring Convocation at the University of Guelph.

The Honorable J. W. G. MacEwan, Lieutenant-Governor of Alberta, and Mrs. A. F. W. Plumptre, President of the Vanier Institute of the Family, will receive Honorary Doctor of Laws degrees. Frederick William Presant, a retired businessman and former Vice-Chairman of the University's Board of Governors will become a Fellow of the University.

A native of Brandon, Manitoba, Grant MacEwan graduated from the Ontario Agricultural College in 1926 and received an M.S. degree from Iowa State College in 1928. He then became a member of the faculty of the University of Saskatchewan; in 1946 he was appointed Dean of Agriculture at the University of Manitoba. He resigned in 1951 to enter politics and devote more time to writing. He was elected to the Alberta Legislature in 1955 and became leader of the Opposition. A Calgary Alderman for 10 years, he was Mayor of the City of Calgary from 1962 to 1965. Since 1965, he has been Lieutenant-Governor.

Today, Grant MacEwan devotes most of his time to writing and public service. He has co-authored 18 books, many of which deal with the romance, history, development, politics and characters of Western Canada.

Mrs. Plumptre, an economics graduate from the University of Melbourne, Australia, is considered the voice of the consumer and consultant to government agencies. A member of the Vanier Institute of the Family since its formation, she has served as its President since 1968. She is a member of the Ontario Economics Council and the Canadian Consumer Council; a director of the Canadian Welfare Council and a Trustee of the National and Provincial Parks Association. She served on the Economics Council of Canada from its establishment until March of this year.

Mrs. Plumptre's activities have included voluntary service to the Ontario Division of the Canadian Red Cross, Toronto Children's Aid Society, Ottawa Children's Aid Society, and the Ottawa Family Service Agency. She is a popular speaker to associations, conferences and consumer organizations.

After graduating from OAC in 1923, Fred Presant launched a career in agricultural education with the Ontario Department of Agriculture. He moved to business with

the newly-formed Toronto Elevators and was instrumental in starting Master Feeds. After several years of government service during World War II, on loan from his company, he returned to Toronto Elevators as Vice-President and remained in that capacity until his retirement in 1962. He was made a Member of the Order of the British Empire for his efforts during the War with the Wartime Prices and Trade Board. He is Founding Member and past president of the Poultry Industry Committee and the Canadian Feed Manufacturers. He has been honored for his service to agriculture by being elected a fellow of the Agricultural Institute of Canada. The University of Guelph Alumni Association named him Alumnus of Honour in 1971.

Mr. Presant has been active in Guelph campus affairs for many years. He was first Chairman of the OAC Advisory Committee to the Minister of Agriculture and the subsequent Advisory Board for Conjoint Administration. He served as chairman of the Board of Regents for the Federated Colleges, and then became a member and Vice-Chairman of the Board of Governors of the University of Guelph. He acted as Vice-Chairman until 1967 and retired from the Board in 1970.

These three distinguished Canadians will be suitably honored at University of Guelph convocation ceremonies, May 24 through 26. As in the past, six ceremonies will be held in War Memorial Hall to accommodate the spring graduates.

Mr. Presant will be honored at the Thursday, May 25 afternoon ceremony and give the Convocation address for the Doctor of Veterinary Medicine graduates. Mrs. Plumptre will address the Bachelor of Applied Science, Bachelor of Science (Engineering), and Bachelor of Landscape Architecture graduates after receiving her degree at the Friday, May 26 morning ceremony. Mr. MacEwan will receive his degree at the Friday afternoon ceremony and address the Bachelor of Science (Agriculture) graduates.

Dr. N. R. Richards, who will be retiring as Dean of OAC this July, will address the graduates in the B.A. (General) program on Wednesday, May 24 at the morning ceremony. The Honors B.A. graduates will be addressed by R. P. Gilmor, Provost, at the Wednesday afternoon ceremony.

Dean Keith Ronald will address the B.Sc. (General), B.Sc. (P.E.) and the Associate Diploma graduates at the Thursday, May 25 morning ceremony.

REPORT FROM BOARD OF GOVERNORS

April 28, 1972 Meeting

APPOINTMENTS

COLLEGE OF ARTS

- Derek E. Healey, Assistant Professor, Office of the Dean, Division of Music.
- Hendrick J. Horn, Lecturer, Department of Fine Art.
- John W. Boyle, Associate Professor, Department of History.
- John M. Bell, Assistant Professor, Department of Languages, Classics.

COLLEGE OF PHYSICAL SCIENCE

- Saul Goldman, Assistant Professor, Department of Chemistry.
- John A. Holbrook, Associate Professor, Department of Mathematics and Statistics.

COLLEGE OF SOCIAL SCIENCE

- Robert Swidinsky, Associate Professor, Department of Economics.
- Ernest Dalrymple-Alford, Associate Professor, Department of Psychology.
- Ronald J. Fisher, Assistant Professor, Department of Psychology.
- Marshall L. Hamilton, Associate Professor, Department of Psychology.
- Bernard I. Silverman, Assistant Professor, Department of Psychology.
- Richard A. Carlton, Associate Professor, Department of Sociology-Anthropology.
- Kenneth S. Menzies, Assistant Professor, Department of Sociology-Anthropology.

ONTARIO AGRICULTURAL COLLEGE

- Clayton M. Switzer, Dean and Professor of Environmental Biology, Office of the Dean.
- Ernest Reinbergs, Professor and Acting Chairman, Department of Crop Science.

ONTARIO VETERINARY COLLEGE

- George J. Losos, Associate Professor, Department of Pathology.

CENTRE FOR RESOURCES DEVELOPMENT

- John R. Wright, Associate Professor, School of Landscape Architecture and Acting Director, Centre for Resources Development.

MOTIONS PASSED

Physical Resources

Veterinary Field Station

The Board approved the design of the proposed Veterinary Field Station as presented and instructed W. A. Brown, Director of Physical Resources, to proceed with the preparation of working drawings.

Johnston Hall Renovations

The Board approved the renovations to Johnston Hall at an estimated cost of \$911,400 and also approved a contribution of \$130,000 from the Development Fund towards the estimated total cost. The Board approved the proceeding with Phase I of the renovations at an estimated cost of \$507,000 and the awarding of the general contract to Monteith McGrath Limited in the amount of \$437,871.

Electrical Distribution, Phase I

The Board approved the construction of

new Electrical Distribution, Phase I, at a total estimated cost of \$76,000, and the award of a contract to Black and Macdonald Limited in the amount of \$67,500.

Physical Education II

The Board approved the retention of E. G. M. Cape and Company as construction manager for the Physical Education II project at a fee of \$67,000.

Students

OVC Student Government Fee

The Board approved a College Student Government Fee of \$6.50/student/semester, for students enrolled in the Ontario Veterinary College, effective September 1, 1972.

Student Department Regulations

A revised Student Department Regulations and Residence Rules, dated April 28, 1972, was approved by the Board.

Graduate Students' Association

The Board approved support for the sentiments expressed in the Canadian Union of Graduate Students' (Ontario) resolution of April 7, 1972.

Senate Brief

The Board endorsed the Senate Brief to the Commission on Post-Secondary Education in Ontario and approved the sending of a letter confirming this endorsement to the Chairman of the Commission.

Guelph faculty spend summer in Spain

Joining the throngs of sun-seekers, four Guelph faculty members and seven students left this week on a six-week trip to Spain. While their fellow travellers headed for balmy beaches or lively Madrid, the University of Guelph contingent had a destination slightly off the beaten track — Carrascosa del Campo. They face back-breaking exploration of the 300 foot long mound which could lure them on a rendezvous with Roman civilization.

Director of the expedition, Dr. Mahmoud Sadek, Department of Fine Art, selected the site last summer after touring several sites and conducting superficial investigations. Carrascosa del Campo offered several tasty morsels of bait for this seasoned archeologist. Preliminary diggings uncovered columns and capitals from Roman buildings, pieces of mosaic and pottery fragments. The deciding factor, however, was a gravestone with a Latin inscription possibly dating back to the second century B.C.

Although he can't predict what they will find, Dr. Sadek feels that they have started to uncover a camp inhabited by Roman soldiers during destruction raids on the nearby Celt city, Segobriga. The camp may have been occupied for only a few years, or

for several decades. The dig this summer will help clarify this point.

Accompanying Dr. Sadek on the first Canadian archeological expedition to Spain are Professor John Milliken, School of Landscape Architecture; Dr. Victor Matthews, Languages; and Professor Mary Rogers, History. The University's Research Advisory Board has funded the expedition, but the students had to pay their own expenses.

Professor Milliken is surveyor and architect for the team (he calls himself the "measurer"). Dr. Matthews, as epigraphist, will decipher inscriptions on the artifacts. In addition, he is handling financial arrangements for the expedition and will be the official colour photographer. Professor Rogers, the historian, will compile the official record of findings, synthesizing bits and pieces of information which emerge from the mound. She is also the official photographer for black and white.

Under an agreement with the Spanish government, five students from Spanish universities and a Spanish archeologist will participate in the excavation.

The group hopes the expedition will uncover some historically significant insights into Roman inhabitation of Spain.

Would-be archeologists bask in Guelph's tentative spring sunlight before embarking on a six-week rendezvous with Roman civilization at Carrascosa del Campo, Spain. Left to right: Professor Mary Rogers, History; Dr. Victor Matthews, Languages; Dr. Mahmoud Sadek, Fine Art; and Professor John Milliken, Landscape Architecture.

Clayton M. Switzer named Dean-Designate

OVC Branch Library hours

Dr. Clayton M. Switzer has been named Dean-Designate of the Ontario Agricultural College. The appointment was announced by President W. C. Winegard, following the Friday, April 28, Board of Governors meeting. Dr. Switzer will assume the position of Dean on July 1, 1972, succeeding Dr. N. R. Richards, who has completed two terms as Dean of OAC. Dean Richards will resume a teaching appointment in the Department of Land Resource Science.

"Dr. Switzer is an outstanding scientist who has established an international reputation for his research with herbicides as related to crop production and is widely recognized as a teacher," says Dr. Winegard. "At the same time, he is known for his deep concern for and intimate knowledge of the rural community. We are fortunate in being able to appoint someone with these concerns to head the Ontario Agricultural College for the next five years."

Dr. Switzer was born and raised on a farm in Caradoc Township in Middlesex County and graduated from the Ontario Agricultural College in 1951. He received a Ph.D. degree in plant physiology from Iowa State University in 1955, and returned to Guelph to join the faculty of the Department of Botany. In

1967 he was named Chairman of the Department of Botany, and in 1970 became Associate Dean (Research) at OAC.

President Winegard recalled that the emphasis in a recent re-organization plan for OAC was to ensure that it would continue to meet the changing needs of the rural community. "When the OAC celebrates its centenary in 1974, it will be as contemporary as the day it was founded," he stated on that occasion.

The appointment of a dean with Dr. Switzer's background and interests will go a long way to ensuring that this objective is met, Dr. Winegard said in announcing the appointment.

Dr. Switzer is the author of more than 60 scientific papers on the use of herbicides and their mode of action within the plant, and has received substantial grants to support his research work in these areas. He has played an active role in weed control extension

Library is Open:

Monday — Thursday 8:30 a.m. — 10:00 p.m.
Friday 8:30 a.m. — 5:00 p.m.
Saturday — Sunday 1:00 p.m. — 5:00 p.m.
Holidays CLOSED.

Reference Services:

Monday — Friday 8:30 a.m. — 5:00 p.m.

LISTENING ROOM — MAIN LIBRARY SUMMER HOURS

Monday — Friday 10:00 a.m. — 5:00 p.m.
Closed on Saturdays, Sundays and Holidays.

work, and is Chairman of the Ontario Herbicide Committee. He is also an executive member of the Canada Weed Committee, a director of the International Turfgrass Society, and has been active on several committees of the Weed Science Society of America. He is an active member of the Ontario Institute of Agrologists and the Agricultural Institute of Canada.

Dr. Switzer is married to the former Dorothy Allan of Windsor, a graduate of Macdonald Institute. They are the parents of two sons and a daughter.

G. Scott retires

Graham Scott a Grounds Department employee since December 1965 retired at the end of last month. Graham, who worked for Doughty McFarlane before coming to the University, intends to keep busy growing garden produce on his 1 1/2 acre lot and doing custom fencing.

M. J. Bladon, Assistant Head of Grounds, presented Graham with a barometer and pipe set.

APPOINTMENTS

Dr. George F. Kawash has been appointed Assistant Professor in the Department of Family Studies.

Dr. Kawash received his Bachelor of Science degree from Tufts University and his M.A. and Ph.D. degrees from Syracuse University. He was associated with R. B. Cattell at the Laboratory of Personality and Group Analysis, University of Illinois and is currently at the Centre for Advanced Study in Theoretical Psychology, University of Alberta. Dr. Kawash has an interest in developmental psychology and the application of factor analysis to the study of the family. He will be teaching courses in parent-child relationships, child development and mental health principles. He will be arriving on campus early in August.

Dr. Ian R. Tizard has joined the staff of the Department of Veterinary Microbiology and Immunology. Dr. Tizard secured his B.V.M.S. from the University of Edinburgh in 1965, Bachelor of Science honours at the same University in 1966. He secured a Ph.D. from the University of Cambridge and from 1969 to 1971 was an M.R.C. Post-Doctoral Fellow at the University of Guelph. Since August 1971 he has been engaged in research in sheep diseases at the Moredun Animal Disease Research Institute in Edinburgh. Dr. Tizard is married with one child.

Dr. Clayton
M. Switzer

Three Russian scientists were on campus to discuss poultry research and tour the poultry research facilities. Guided by Professor F. N. Jerome, the poultry geneticists spent two days discussing several research programs. From left: Mrs. O. A. Pokarnaya, from the Science Department of the Ministry of Agriculture, Moscow; Professor Jerome; Dr. V. A. Kovinko, Director of the Experimental Poultry Station, Alma-Ata, Kazakhstan; Dr. V. A. Sergeev, Assistant Director, Ukrainian Research Poultry Institute, Simferopol, Crimea; and D. L. Waterston, Director of Information, who welcomed the visitors.

Guelph Spring Festival

Friday, May 5

Concert: 50th Anniversary Toronto Symphony. Conductor: Karl Ancerl.

Saturday, May 6

Concert: Choeur V'la l'Bon Vent. Conductor: Francois Provencher. Folk Song and Dance of Quebec.

Sunday, May 7

18th Century Revue: "Matters, Manners & Mauve Tea." Jane Casson & Eric Donk in.

Monday, May 8

Film: "Pagliacci," produced & conducted by Von Karajan. Starring Jon Vickers who will introduce the film in person.

Wednesday, May 10

The Rowdyman.
Mon Oncle Antoine.

Thursday, May 11

Opera: "Noye's Fludde" Benjamin Britten.

Friday, May 12

Opera: 4:00 & 6:00 p.m. "Noye's Fludde".
Concert: McGill Chamber Orchestra.
Alexander Brott, conductor. Joseph Macerollo, accordion.

Saturday, May 13

Opera: 4:00 & 6:00 p.m. "Noye's Fludde"
Recital: Marilyn Home, Mezzo Soprano.

Guelph man stars

in 'Fludde'

The Guelph Spring Festival has finally found the perfect "God" for Noye's Fludde, the Benjamin Britten pageant opera, opening on May 11 for five performances. Archdeacon Clarence Mitchell of St. George's Anglican Church at Guelph will fill the speaking role.

Allan Coates of the Canadian Opera Company, hired for the role, was released to perform at the Charlottetown Festival.

Archdeacon Mitchell who is a member of the Guelph Concert Singers and formerly of the Bach Elger Choir of Hamilton had the magnitude and sonority of basso profundo voice required for the role.

Artistic Director, Nicholas Goldschmidt, was delighted that the Archdeacon has accepted the part. A dabbler in the performing arts from his high school and University of Western Ontario days, Clarence Mitchell has been one of the advocates and supporters of youth and their growth within the church structure, being one of the first clergy to allow Rock Opera at his service. He therefore should be a great leader to the flock of 120 Guelph school children scheduled to appear in Noye's Fludde being presented in the Church of Our Lady.

Gordon Pinsent, as Will Cole the hero, and Ted Henley as Constable Williams, are shown in a scene from *The Rowdyman*, to be previewed on Wednesday, May 10 at 8:30 p.m. in the Palace Theatre.

Rowdyman previewed at Guelph

The Rowdyman receiving its premiere in St. John's Newfoundland on May 18, will be previewed at the Guelph Spring Festival on Wednesday evening, May 10 at the Palace Theatre. Written by and starring Gordon Pinsent, who played the lead in the successful Canadian T.V. series, *Quentin Durgens, M.P.*, it is the story of a loveable mischievous man in his late thirties. Produced by Lawrence Dane and directed by Peter Carter, it is a Canart Films Production.

Charles Champlin, Los Angeles Times Entertainment Editor, having seen some

advance footage, referred to the film as "off trail, frequently very funny indeed, well made and better than well acted, sex, adult and intelligent."

It tells the story of Will Cole's amorous adventures and light-hearted escapades in a small town in Newfoundland and in the midst of his carefree life of a trip to St. John's. A real coup for the Guelph Spring Festival, the film will be shown only once at 8:30 p.m. with premieres of selected shorts from the National Film Board.

Concerts planned outdoors

For most people signs of spring are snowdrops, pussy willows, cherry blossoms, forsythia, crocuses — all depending on the geographical location. Besides all this appearing on campus, there is one additional unmistakable sign, concerts on the bricks outside Music Room 107.

The John F. Ross C.V.I. Band of over 70 players has agreed to again play outside on Thursday, May 25, Convocation Day. The band plays everything from classics to rock and is directed by Martin J. Bauer, who is chairman of the music department of John F. Ross Collegiate.

There are two other exciting events taking place in this series of Noon Hour Concerts.

The Scarborough Orchestra of 55 players, consisting of nine first violins, nine violas,

triple winds and percussion will give two concerts at noon on Thursday, May 18 in Macdonald Hall Cafeteria. Their conductor, Donald Coakley, is assistant supervisor of music for the Borough of Scarborough.

This orchestra has a fine reputation and it is hoped that there will be a good attendance that day. Because of the difficulty for strings to play outside, it was decided to hold this performance under cover.

The third event will be held in Music Room 107 at 12 noon on May 11, during the Guelph Spring Festival. There will be a panel of outstanding speakers discussing opera. The subject is "Where is Opera Going?" and panel members are, Lou Appelbaum, composer and executive director of the Ontario Arts Council as moderator, Ma^yor Moore, famous playwright, actor and director, Maurice Huisman of the Belgium Opera, and Herman Gieger Torel, artistic director of the Canadian Opera Company.

Theatre, coaching and taxes studied this summer

This summer's continuing education program includes a series on theatre in Ontario, plus courses on football coaching and on the new Canadian tax regulations.

The program, coordinated by the University's Office of Continuing Education, is as follows:

— *Theatre in Ontario — This Summer*: this series of seven two-hour lectures is being given Tuesday evenings, and (unlike other courses, which are being held on campus) is being given at the Guelph Public Library. The cost will be \$15 for the series, or pay-as-you-go, \$2.50 for adults, and \$1 for students. The speakers will be: Professor Nicholas Goldschmidt, the University's director of music, who will speak April 25 on the Guelph Spring Festival; John Lomaro, PR Officer, who will lecture May 16 on the National Arts Centre; James Aikens, archivist for the Stratford Festival, who will speak May 23 on the festival; M. Doherty, founder of the Shaw Festival, who will speak May 30 on the Shaw Festival; Marty Fishman of the University's Drama Division, who will speak June 6 on experimental theatre in Toronto; Dr. Murray Edwards, assistant superintendent of university programming for the Ontario Educational Communication Authority, who will speak June 13 on professional theatre in Toronto; and Herbert Wittaker of the Globe and Mail, who will speak June 20 on coming trends in Ontario theatre.

— *Techniques of Coaching Sports*: this course will deal with techniques, methods, and practice plans in football coaching, and will emphasize early season practice, offensive and defensive drills, team strategy and football rules. The course, which will cost \$25, will consist of six three-hour sessions being held Saturdays starting May 6.

— *You and your New Canadian Income Taxes*: this course will deal with tax legislation, and the taxpayer's rights and obligations under it. It will consist of six two-hour sessions being held from May 9 to June 13, at a cost of \$15. The instructor will be A. W. McInnis, assistant to the University's comptroller.

— *Vocal Techniques*: this course, or workshop in vocal technique, is open to adults who are either beginners or professionals, although a certain aptitude in singing is required. It offers individual instruction in the form of 20 15-minute lessons Monday and Wednesday evenings starting May 15, and costing \$65. The instructor, Alvin Reimer, is a graduate of M. B. College of Arts in Winnipeg and did graduate work in Germany. He has received awards from the Southern Manitoba Musical Festival, the "Rosebowl" competitions, and, for three consecutive years, the German government's DAAD scholarship.

— *Classical Guitar*: this course will provide group instruction for anyone interested in beginning or furthering his skill in classical guitar. There will be 10 half-hour periods being

being given Wednesday evenings starting May 17. The cost will be \$30. The instructor, Francis St. Cyr, is a graduate of the Royal Academy of Music, London, England, and has played with a number of musical ensembles, as well as instructing for three years with the Montreal Catholic School Commission.

— *Painting — Open Imagery*: this studio painting course will emphasize personal expression and experimentation using acrylic and oil paints; no previous training is required. There will be 10 three-hour sessions, held Tuesday nights from May 9 to July 10. The cost will be \$37.50 plus a lab fee. The instructor will be Allyn Lite of the University's Fine Art Department.

— *Painting — Problem Structured*: this course, which is open both to beginners and advanced students, concentrates on problems of colour, spaces, reality, geometry etc., that involve painting materials. It consists of ten three-hour sessions being held Wednesday evenings from May 10 to July 11. The cost is

\$37.50 plus a lab fee, and the instructor is Mr. Lite.

— *Language courses*: four courses in oral French, at the first, second, third and fourth levels. Eight hour-and-a-half sessions will be given at a cost of \$37.50. Classes will be held Wednesday evenings starting May 17 for French Oral 1 and 2, and Saturday mornings starting May 6 for Oral 3 and 4. The instructresses will be Professors M. Ostir and O. Perreault of the Languages Department. Spanish at the third level with a stress on conversation is also being offered, at a cost of \$37.50, in eight two-and-a-half hour sessions. Classes will be held Tuesday evenings starting May 16. The instructress is Professor M. Adelstein of the Languages Department.

Registration for these courses can be complete by contacting the Office of Continuing Education either by mail or in person at Room 145, Johnston Hall. The deadline for enrolling is May 12.

Toronto artist exhibits during Festival

An exhibition of paintings and drawings by Ron Bolt will be on display in the Faculty Club during the two weeks of the Guelph Spring Festival, April 29 — May 13.

Born in Toronto in 1938, Mr. Bolt began his musical training as a pianist at the age of five and continued musical training in piano and brass until he was 21 and received his associateship as teacher and solo performer from the Royal Conservatory of Music in Toronto in 1960. At the same time he began his career as a graphic designer, graduating from the commercial art course at Northern Vocational School. He worked as an apprentice in a commercial art studio, learning all phases of the graphic arts industry from the ground floor.

The artist says about his collection, "The five oil paintings and five conte' pencil drawings in this series reflect my current infatuation with the music of Gustav Mahler. My interest in Mahler began after I heard a live performance of his Fourth Symphony by the Toronto Symphony Orchestra. I was so tired at the time that any intellectual process I might have applied to appreciating the music was completely washed away by the sheer luxuriousness of the sound.

"Although the pieces are titled after the various movements and programmatic descriptions of Mahler's symphonies and songs, they are not meant to be visually descriptive of any particular musical passage. Indeed, in some cases I have yet to hear the music the painting is titled after. Rather than illustrate visually ideas that are best appreciated in sound, I have tried, with the poetic assistance of Mahler's titles to relate to those

qualities in his music that, as a visual artist, I find myself most in sympathy with.

"The most obvious example would be the use of gold and silver papers, foils and sprays to suggest the lush beauty of the sound of the music. The bitter sweet lyricism and the use of massive forces to achieve a renaissance-like delicacy of structure are other qualities that I find can be stated quite effectively in a visual way."

The paintings include: Full Sail — From the scherzo movement of the Symphony No. 1; Symphony of a Thousand — The programmatic title of the Symphony No. 8.; Primal Light — From the fourth movement of the 'Resurrection' Symphony (No. 2); Youth, Flowers, and Thorns — From the first movement of the Symphony No. 1; Spring without end — From the first movement of the Symphony No. 1.

The five drawings are titled after Mahler's song cycle 'Das Lied von der Erde' (Songs of the Earth).

Artist Ron Bolt in his Toronto studio.

FACULTY ACTIVITIES

Dr. Alan Wilshere, Languages, has received a further research grant from the Canada Council to enable him to continue his work on *Le Mirour de Seynte Eglyse*, the 13th century devotional treatise by St. Edmund of Abingdon, which he is editing for the Anglo-Norman Text Society in Oxford.

Dr. K. S. Tsai, Pathology, recently attended the Sixty-Ninth Annual Meeting of American Association of Pathologists and Bacteriologists held in Cincinnati, Ohio and presented a paper entitled, *Vascular changes in epizootic hemorrhagic disease (EHD) of deer: an electron microscopic study*.

Professor E. A. Cebotarev, Sociology/Anthropology, went to Ottawa on the invitation of the Canadian Commission for UNESCO as consultant for the developing of a program for an international conference on, *Linguistic and Cultural Diversity — A Canada/UNESCO symposium on cultural and linguistic policies in plurilingual and pluricultural states*.

Professor Walter B. Simon, Sociology and Anthropology, participated in meetings held by the International Political Science Association at the Institute for Research on Bilingualism of Laval University in Quebec City on, *Multilingual political systems: problems and solutions*. Professor Simon gave a paper on, *Social classes, multilingualism, and social change*.

Dr. John F. Melby, Political Studies, attended the 76th annual meeting of The American Academy of Political and Social Science held in Philadelphia and spoke on, *Maoism as a World Force*, during the second session of the meeting.

Dr. C. M. Switzer, Professor H. W. Goble, and Professor C. B. Kelly, Environmental Biology, attended a meeting of Advisory Committee on The Better Use of Plant Pesticides, held at the Civic Garden Centre, Toronto.

Dr. W. H. A. Wilde, Environmental Biology, spoke at the Orchard Management Meeting held at The Beaver Valley Elementary School, Thornbury, on, *Lime sulphur — should we be using it?*

Dr. I. R. Evans, Environmental Biology, spoke at the Ontario Fruit and Vegetable Growers' Association Meeting held at the Fair Grounds Coliseum, Stratford on the topic, *Turnip virus problem in Ontario*.

Professor C. B. Kelly, Environmental Biology, spoke at the Ontario Fruit and Vegetable Growers' Association meeting held at the Fair Grounds Coliseum, Stratford — *Storage diseases of rutabagas*.

Dr. John Vanderkamp, Chairman, Economics, gave a seminar at Princeton University, Princeton, New Jersey. The topic was, *Regional disparities and migration*.

Professor Norman Pearson, Centre for Resources Development, presented a summary brief to the Canadian Preparatory Committee for the Regional Consultation for the United Nations Conference on the Human Environment planned for 1972.

Professor Frank Theakston, Engineering, has been appointed to the Snow and Ice Subcommittee, Associate Committee on Geotechnical Research through the National Research Council of Canada.

Dr. Blair MacNeill, Environmental Biology, has returned after eight weeks in Argentina. In South America he was responsible for a graduate course in plant pathology given to representatives of the Argentinian Department of Agriculture Research Branch (I.N.T.A.). He also renewed the cordial relationships which our University has enjoyed with Universidad del Sur in Bahia Blanca, Argentina, and seemed very pleased with the climate, high steaks and vino that his hosts offered so graciously during his visit.

Dr. J. L. Eggens, Horticultural Science, recently presented a lecture on turf maintenance of sports facilities to the Grounds Maintenance Symposium (Green Side Up) recently held on campus.

Maureen Benedict, Consumer Studies, presented a paper entitled, *The effect of selected anthraquinones on the photodegradation of textile fibres*, at the 33rd Scientific Session of the Institute of Textile Science in Toronto.

D. M. Mozziar, Administrative Systems and Programming, attended a seminar on information processing held by the Grand Valley Chapter of the Canadian Information Processing Society. He gave a paper entitled, *Preparing for data base*.

Dr. C. A. O. van Nieuwenhuijze, Agricultural Economics and Extension Education, attended the 4th International Conference at the Institute for International Cooperation held at the University of Ottawa. The theme of the Conference was *Intermediate manpower, the gap in development strategy*.

Dr. F. R. Hallett and Dr. A. L. Gray, Physics, attended the Conference on Light Scattering from Biological Systems at the Massachusetts Institute of Technology and presented a paper; *Photon correlation spectroscopy using a digital PDP-9 computer*. This conference was also attended by Dr. P. A. Speight of the Physics Department.

Dr. P. A. Egelstaff, Physics, travelled to Simon Fraser University, British Columbia to act as External Examiner at a Ph.D. oral.

Dr. J. Sabry, Family Studies, attended the meeting of the Federation of American Societies for Experimental Biology held in Atlantic City, Georgia.

Dr. R. A. Willoughby, Clinical Studies, has been invited to spend six months as a Visiting Professor with the Faculty of Veterinary Medicine, University of Ghent, Ghent, Belgium. He will be involved with the teaching and research programs in the Department of Veterinary Medicine at Ghent. While in Europe he will have an opportunity to visit research institutes where the effects of toxic environment on animals are being studied. Dr. Willoughby left the end of April.

Professor J. H. A. Lee, Engineering, spoke at a Haldimand County Soil & Crop Improvement Association evening meeting at Dunnville. His topic was on planting machines — selection and operation.

Dr. J. Newman, Philosophy, read a paper on the philosophy of Cardinal Newman at the annual meetings of the American Catholic Philosophical Association in Milwaukee.

Alumni plans Green Thumb Day

Mother Nature, grand dame of the ecology movement, will preside over Green Thumb Day, a weekend of fun and frivolity sponsored by the Alumni Association. Alumni and faculty are invited to participate in this family day, May 13. It promises to be "the greatest tree-planting excursion since Johnny Appleseed crossed the Continent."

Activities will begin with interest sessions on matters of acute interest to home gardeners and ecology buffs. Topics include flower arranging, high rise gardening, small fruit culture, lawns and annuals and perennials.

After a beer and burgers lunch at the Wharf, the aspiring green thumbers will proceed to the University arboretum where each will apply his newly acquired knowledge to the nitty gritty of planting a tree.

The day's ecological and educational theme will give way to lighter topics with dinner at Macdonald Hall dining room and Las Vegas Night in the Lambton Hall games room.

Those who stay over until Sunday may attend a sunrise church service, have breakfast and take a guided nature-lovers' hike on the new Guelph Trail.

Tickets for Green Thumb day are available at Alumni House. Participants' thumbs may be green in spirit only.

PUBLICATIONS

Dr. John King-Farlow, Philosophy, addressed the Sixth Annual Conference on Value Inquiry, sponsored by the State University of New York and held at the Genesee campus, on Logic of the right to elbow room. Dr. King-Farlow will be Visiting Professor at the University of Ottawa next year, leading bilingual seminars on Anglo-American philosophy.

CAMPUS BRIEFS

Computer office change

Miss Joanne Sage, who is responsible for computer related charges and accounting, has moved her office from the Animal Science-Nutrition building to Room 314, Institute of Computer Science building.

All queries in relation to project authorization, project number, charges for computer services etc. should be directed to Miss Sage, extension 3467.

Apiculture moves

The Apiculture staff of the Department of Environmental Biology has moved to Graham Hall. The Apiculture building, built in 1919, was the first erected for Apiculture studies

at a College or University on this continent. It is being stripped in preparation for demolition later this year.

Barbershop open

The campus barbering and hairstyling shop in the basement of Johnston Hall will remain open through the summer. Shampooing, cutting, styling, shaping, shaving and beard trimming. Open Monday through Friday, 9 a.m. to 5:30 p.m.

Star Magnolias bloom

The Lambton courtyard will burst into bloom next week as the Star Magnolias open their large, many petaled blossoms. A native of Japan and perhaps the most ornamental of the Asiatic magnolias, it grows very slowly. Shrubs on campus are about 30 years old.

Postage-Paid-In-Cash At Third Class Rates Permit 721, Guelph, Ontario.
